

nexogy to provide Managed Cloud Solutions to the largest privately-owned clinical research center in the United States.

QPS-Miami Research Associates, is the largest privately-owned multi-specialty clinical research center in the United States. www.qps.com

MIAMI, FLORIDA, UNITED STATES, June 21, 2017 /EINPresswire.com/ -- nexogy, a leading provider of [cloud services](#), has secured a \$90K, three-year cloud solutions contract with a leading health system. The company cited nexogy's line/extension model really helped them to differentiate from some of the other Hosted PBX Providers that were initially bidding on this contract.

nexogy's team of experts will provide a comprehensive suite of cloud services including:

-An advanced, fully integrated Cloud Business Phone Services providing scalable, converged voice and data solutions to accommodate future growth

- [Call center functionality and reporting](#)
- Remote worker capabilities
- Admin tools to change greetings, auto-attendants and queue configurations in real time

[The health system was impressed](#) with nexogy's robust, geographically diverse nationwide network, which in combination with its integrated, single source cloud solutions will enable the company to reliably and securely connect multiple managed branches of the health system across multiple states.

nexogy's ability to provide a comprehensive suite of additional cloud services like the Enhanced Contact Center Solution and the Receptionist Console Module were also important points of consideration for the institution, as it looks to migrate more of its business to the cloud over time.
