

Global Self-Healing Material Market is Predicted to Grow at Approximately 7% by 2023

Global Self-Healing Material Market Information Report by Product Metals, By Technology (Reversible Polymers, Microencapsulation, Biological

PUNE, MAHARASHTRA, INDIA, June 8, 2017 /EINPresswire.com/ -- The major driver for the growth of the [self-healing material market](#) can be attributed to the ability of the self-healing materials to increase the lifetime of any construction activity that are prone to various damages such as cracks in walls and others. The self-healing materials are also being used extensively as a coating for doors, automotive and others to prevent them from corrosion. The increasing applications of the self-healing materials across various industry verticals such as construction, electronics, automotive and others is also driving the growth of the self-healing materials market.

The Asia-Pacific region is expected to grow the fastest in the Self-healing material market owing to factors such as rapid industrialization and the increasing foreign direct investments for the electronic and automotive industries in the region. With the easy availability of cheap labor in the region many manufacturing industries are establishing their manufacturing sites to the Asia-Pacific region, which are leading to an increase in use of self-healing materials. This is leading to the growth of the self-healing material market in the region.

The Europe region is expected to grow during the forecast period owing to the increase in the purchasing power of the people and the expansion of multinational companies, which are requiring the use of the self-healing materials.

This study provides an overview of the [global Self-healing material market](#), tracking three market segments across four geographic regions. The report studies key players, providing a five-year annual trend analysis that highlights market size, volume and share for North America, Europe, Asia Pacific (APAC) and Rest of the World (ROW). The report also provides a forecast, focusing on the market opportunities for the next five years for each region. The scope of the study segments the global Self-healing material market by its product, technology, application and region.

By Product

- Concrete
- Coatings
- Polymers
- Metals
- Others

By Technology

- Reversible Polymers
- Microencapsulation
- Biological Material Systems
- Others

By Application

- Construction
- Automotive
- Electronics
- Others

By Region

- North America
- Asia Pacific
- Europe
- Rest of the World

Key Players

- Bayer Material Science LLC (U.S.)
- High Impact Technology LLC (U.S.)
- Dow Chemical Company (U.S.)
- Michelin (France)
- Nissan Motor Company Ltd, (Japan)
- Huntsman Corporation (Texas)
- Akzo Nobel N.V. (Netherlands)
- MacDermid Autotype Ltd. (U.K.)
- Autonomic Materials, Inc. (U.S.)

The report for Self-healing material market of Market Research Future comprises of extensive primary research along with the detailed analysis of qualitative as well as quantitative aspects by various industry experts, key opinion leaders to gain the deeper insight of the market and industry performance. The report gives the clear picture of current market scenario which includes historical and projected market size in terms of value, technological advancement, macro economical and governing factors in the market. The report provides details information and strategies of the top key players in the industry. The report also gives a broad study of the different market segments and regions.

Table of Contents

- 1 Executive Summary
- 2 Research Methodology
- 3 Market Dynamics
 - 3.1 Market Drivers

- 3.2 Market Inhibitors
- 3.3 Supply/Value Chain Analysis
- 3.4 Porter's Five Forces Analysis
- 4 Global Self-Healing Material Market, By Product
- 5 Global Self-Healing Material Market, By Technology
- 6 Global Self-Healing Material Market, By Application
- 7 Regional Market Analysis
- 8 Competitive Analysis
