and gather positive healing energy. The movements and contemplation of Sheng Zhen Gong help re-create that deep sense of inner peace we experienced as a small child. As the body softens and negative emotions are released, one experiences a feeling of perfect harmony with the universe.

Master Li's continued search for internal peace and cultivation of Internal Qi has brought him awareness and deep connection with the universe. He was "chosen" to receive and pass on Heavenly QiGong/TaiChi teachings in the lineage of Lao Tzu, Kuan Yin, Jesus, Muhammad and other divine spirits. These teachings include a philosophy that calls for the unification of all religions, caring for the planet and saving the environment.

China was not ready to receive what he had to offer then, so Master Li was called to travel to the Philippines to start his teaching work. With his wife and two young children at home, Junfeng Li quit his Head Coach position with the Chinese government, forgoing his retirement/pension plan and traveled to the Philippines, trusting support would be there when he arrived.

“

We are infinitely free beings, embodiment of love on every level, sparks of the divine, perfect and full!”

*Junfeng Li - Former China National Wushu Coach*

With such trust in divine consciousness, Master Li spent 14 years in the Philippines, where he began his lifetime dedication to teach Sheng Zhen Gong—the qigong of unconditional love that brings happiness and the “wisdom of life” to all. In 2002, Master Li came to the United States and has been teaching here ever since.

Sheng Zhen empowers and transforms lives. As the editor of Sheng Zhen Wuji Yuangong, Anabel Alejandrino said: "It is

through practice that one is led naturally into one's own perfect love in the heart. More than just a healing tool for the body and the emotions, I have found that not only do the movements almost magically become the tools with which we can become the person we all want to be, but also our capacity to enjoy life with its ups and downs is enhanced and magnified. Li Junfeng is a living example of this".

To practice Sheng Zhen is to enter into a “Sheng Zhen state” Anabel said: “As one learns to let go so that the wisdom of Qi takes over, life's journey becomes a road of letting go of fears we hold in our bodies, concepts that render our minds inflexible, feelings in our hearts that we are attached to, and programming in our subconscious that holds us back. In so doing, we make way for what we truly are in essence – infinitely free beings, embodiment of love on every level, sparks of the divine, perfect and full. It is this experience that the practice of Sheng Zhen Gong brings. Ultimately, the practice is a key into one's own heart, which enables one to walk into their own light. In this process, love for oneself becomes a tangible reality. This in turn leads to loving others unconditionally. These are the building blocks to a world of love – to a Sheng Zhen World.”
