

# Global High Speed Cameras Market Analysis by Component, Frame Rate, Application, Geography, Trends, Forecast (2017-2022)

*Component (Image Sensors, Lens, Battery, Memory Systems, Memory Systems), Frame Rate (1000 to 5000, 5001 to 20000, 20001 to 100000, Greater than 100, 000)*

DALLAS, TEXAS, UNITED STATES, June 9, 2017 /EINPresswire.com/ -- The market for [High Speed Cameras](#) is expected to grow at a CAGR of XX.XX% to reach USD XX.XX billion by 2022 from the current estimate of USD 201.18 million. High speed cameras are the devices for slow motion capturing of events and in terms of the frame rates.

A normal digital camera can capture images at frame rates of only 30fps. The frame rates of a commercial market can range anywhere between 100fps to millions of fps. The frame rate which is expected to lead the market in terms of the growth are 1000 fps 10000fps. 1000fps-10000fps frame rates is the best choice for high speed cameras for many of the applications, and the market in this frame rate is expected to grow at the highest CAGR for the next five years, among all the frame rates.

Increasing number of sensor manufacturers and growing demand for entertainment, sports, and media are the key drivers which is making the high speed cameras market to grow lucratively.

The Global High Speed Cameras Market is segmented on the basis of Components (Image Sensors, Lens, Battery, Image Processors, Memory Systems, and Others), Application (Entertainment & Media, Sports, Consumer electronics, Research & Design, Industrial Manufacturing, Military, Defense, & Aerospace, and Others), and Geography (North America, Europe, Asia Pacific and Rest of the World). Research and Design is the primary field responsible for commercial existence of this technology in a large scale.

The report also considers key trends that will impact the industry and profiles over 10 leading suppliers of high speed cameras market. Some of the top companies mentioned in the report are Photron LTD (U.S.), Vision Research, Inc. (U.S.), Motion capture Technologies (U.S), Del Imaging Systems LLC (U.S), Mikrotron GmbH (Germany), and Olympus Corporation (Japan).

What the report offers

Orbis Research

- Market Definition for the specified topic along with identification of key drivers and restraints for the market.
- Market analysis for the Global High Speed Cameras Market, with region specific assessments and competition analysis on a global and regional scale.
- Identification of factors instrumental in changing the market scenarios, rising prospective opportunities and identification of key companies which can influence the market on a global and regional scale.
- Extensively researched competitive landscape section with profiles of major companies along with their strategic initiatives and market shares.
- Identification and analysis of the Macro and Micro factors that affect the Global High Speed Cameras Market on both global and regional scale.
- A comprehensive list of key market players along with the analysis of their current strategic interests and key financial information.

Major Points from Table of Contents:

## 1. Introduction

- 1.1 Key Deliverables of the study
- 1.2 Study Assumptions
- 1.3 Market Definition
- 1.4 Key Findings of the Study

## 2. Research Approach and Methodology

## 3. Executive Summary

## 4. Market Dynamics

- 4.1 Market Overview
- 4.2 Market Drivers
- 4.3 Market Restraints
- 4.4 Porter's Five Forces Analysis
  - 4.4.1 Bargaining Power of Suppliers
  - 4.4.2 Bargaining Power of Buyers
  - 4.4.3 Threat of New Entrants
  - 4.4.4 Threat of Substitute Products and Services
  - 4.4.5 Degree of Competition
- ... and Continued
