analysis of the Corporate Web Security market. Web security is one of the most fundamental security solutions that an organization can deploy. Web security solutions are software, appliances, or cloud services that protect corporate users and networks from Web-based malware, and enable organizations to control employee behavior on the Internet, while preventing data loss.

The study provides market size, installed base and revenue market share by vendor, four-year forecasts, as well as detailed analysis of major players in the market, including Barracuda Networks, Cisco, Clearswift, Forcepoint, iBoss, McAfee, Sophos, Symantec, Trend Micro, Trustwave, and Zscaler.

According to the study, the Corporate Web Security market is growing fast in terms of revenues as organizations of all sizes are concerned about security and are investing heavily in protecting themselves from a myriad of web-borne threats. The market is expected to grow from over \$2.8 billion revenues in 2017, to over \$4.9 billion in 2021.
