

# Industrial Display Market System Is Estimated to grow by ~6.8% of CAGR

*Industrial Display System Market, By Display Type Flat panel, Flexible, Transparent, by Technology LED-backlit LCD, by Application Smartphone & Tablet*

PUNE, MAHARASHTRA, INDIA, June 9, 2017 /EINPresswire.com/ -- The study reveals that Industrial Display is trending in North America region. The Industrial Display market is driven by the innovation and advancements in high definition display to make more advanced and cost effective devices. A recent trend in IoT and 3D technologies is boosting the Industrial Display market.

The study indicates that the increasing use of HMI applications and remote monitoring is a key driver for Industrial Display market. The study indicates a trend of high adoption of digital signage for information display is boosting the Industrial Display market. The study reveals that the high costs results as a limitation to the Industrial Display market.

The Industrial Display Market is growing rapidly over 6.8% of CAGR and is expected to reach at USD \$~6.71 billion by the end of forecast period.

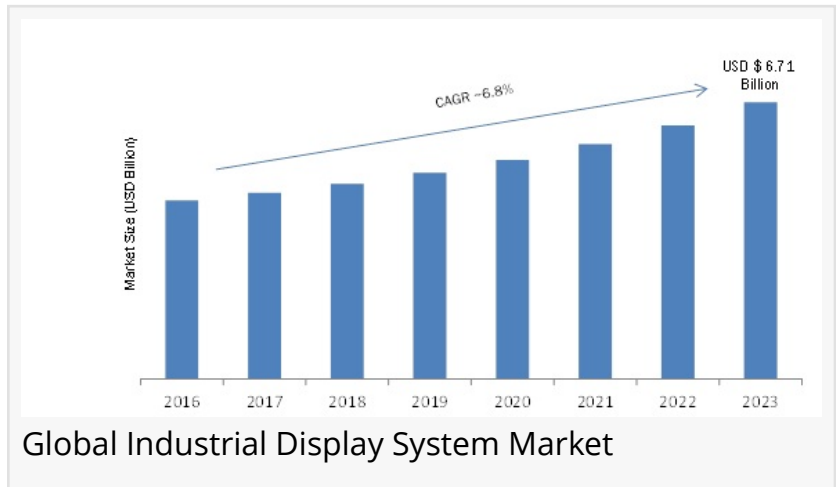

Taste the market data and market information presented through more than 30 market data tables and figures spread over 100 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on "The Industrial Display Market Research Report -Forecast to 2023".

The Industrial Display Market has been segmented on the basis of display type, technology, applications, end-user and region. Looking through the end-user segment it has been observed that industrial sector has shown a rapid growth in HD Display market and holds the largest market share. The study indicates that the other sectors like BFSI and government would show a positive growth in the Industrial Display market.

Study Objectives of [Industrial Display System Market](#):

- To provide detailed analysis of the market structure along with forecast of the various segments and sub-segments of the [Industrial Display system](#) market.
- To provide insights about factors affecting the market growth.
- To analyze the Industrial Display system market based porter's five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- North America, Europe, Asia, and Rest of the World (ROW).
- To provide country level analysis of the market with respect to the current market size and future prospective.
- To provide country level analysis of the market for segment on the basis of display type, technology, applications, end-user and region.

Global Industrial Display System Market

- To provide strategic profiling of key players in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market.
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the Industrial Display system

#### Key Players:

The prominent players in the Industrial Display system Market are –

- LG Display Co., Ltd. (South Korea)
- Samsung Electronics Co., Ltd. (South Korea)
- AU Optronics Corp. (Taiwan)
- Innolux Corp. (Taiwan)
- Japan Display Inc., (Japan)
- Sharp Corp. (Japan)
- BOE Technology Group Co. (China)
- Hannstar Display Corp. (Taiwan)
- Varitronix International Limited (Hong Kong)
- TCL Display Technology Holdings Limited (Hong Kong)
- Universal Display Corp. (U.S.)
- E Ink Holdings Inc. (Taiwan)

#### Segments:

The [global Industrial Display system market](#) has been segmented on the basis of display type, technology, applications, end -users and region.

Industrial Display system Market by Display Type:

- Flat panel
- Flexible
- Transparent
- Others

Industrial Display system Market by Technology:

- LED-backlit LCD
- OLED
- Quantum Dot LED
- E-paper
- Laser phosphor display (LPD)
- Interferometry modulator display (IMOD)

Industrial Display system Market by Application:

- TV and digital signage
- PC monitor and laptop
- Vehicle and public transport
- Smartphone and tablet
- E-readers
- Smart wearable
- Gaming consoles, sports, and entertainment
- Smart industrial appliances
- Others

Industrial Display system Market by End-User:

- Automotive and aerospace
- Healthcare
- Transportation
- Retail
- BFSI
- Government and defense
- Industrial

•Others (Hospitality and Education)

On geographic basis, Industrial Display market is studied in different regions as Americas, Europe, Asia-Pacific and Rest of world. It has been observed that North America region is leading in the Industrial Display market as rugged displays are widely used for HMI applications. The study shows that Europe region has a positive growth in the Industrial Display market due to its low cost, good image quality and operating life. The manufacturing and power generation sectors are playing a major role in the developing countries in Asia-pacific regions like China, Japan and others are showing high adoption in the Industrial Display systems.

#### Intended Audience

- Raw material providers
- Panel manufacturers
- Brand customers
- Display-related service providers
- Display-related associations, organizations, forums, and alliances
- Government bodies, such as regulating authorities and policy makers
- Venture capitalists, private equity firms, and start-ups
- Semiconductor component suppliers
- Panel and devices distributors, and sales firms
- End users
- Research institutes, organizations, and consulting companies
- System Integrators
- Research/Consultancy firms
