

Solar Industry Equipment Transportation 2017 Global Market Expected to Grow at CAGR 7.24% and Forecast to 2021

The analysts forecast the global solar industry equipment transportation market to grow at a CAGR of 7.24% during the period 2017-2021.

PUNE, INDIA, June 12, 2017 /EINPresswire.com/

--

WiseGuyReports.Com Publish a New Market Research Report On - "Solar Industry Equipment Transportation 2017 Global Market Expected to Grow at CAGR 7.24% and Forecast to 2021".

[The logistics of solar industry](#) equipment involves movement and storage of oversized cargo to aid the large-scale setting up of solar-based power plants at highly inaccessible locations. This type of project logistics requires a high level of planning and execution at the ground level from start to finish. The advancement in the technology associated with solar-based energy generation has led to an increasing demand for utility-scale energy plants

Covered in this report

The report covers the present scenario and the growth prospects of the global solar industry equipment transportation market for 2017-2021. To calculate the market size, the report considers revenue generated by transportation of solar industry equipment.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Solar Industry Equipment Transportation Market 2017

The report, Global Solar Industry Equipment Transportation Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- DB Schenker
- DHL
- Maersk Line

Other prominent vendors

- Alder Energy Systems
- Bolloré Logistics
- Global Shipping Services
- KBH Production Automation
- Logistics Plus
- McCollister's Transportation Group
- SSI Logistics

Market driver

- Increased requirement for safety and security
- For a full, detailed list, view our report

Market challenge

- Increased government regulations
- For a full, detailed list, view our report

Market trend

- Increase in government support for solar energy projects
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Global solar industry equipment transportation market
- Five forces analysis

PART 06: Market segmentation by mode of transportation

- Global solar industry equipment transportation market by mode of transportation
- Global solar industry equipment transportation market by road
- Global solar industry equipment transportation market by rail
- Global solar industry equipment transportation market by sea
- Global solar industry equipment transportation market by air

PART 07: Geographic segmentation

- Global solar industry equipment transportation market by geography
- Solar industry equipment transportation market in Americas
- Solar industry equipment transportation market in EMEA
- Solar industry equipment transportation market in APAC

PART 08: Key countries

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Increasing deployment of microgrids
- Increase in government support for solar energy projects
- Need for rural electrification

PART 12: Vendor landscape

- Competitive scenario
- DB Schenker
- DHL
- Maersk Line
- Other prominent vendors
