

SURELINE SYSTEMS TO SHOWCASE INDUSTRY-LEADING DATA MIGRATION SOLUTION AT NUTANIX .NEXT

SUREedge Migrator Delivers Markets Fastest Agentless Migration

SAN JOSE, CALIFORNIA, US, June 14, 2017 /EINPresswire.com/ -- Sureline Systems, a leader in enterprise-class physical, virtual, cloud, and container migration and disaster recovery software solutions for application mobility today announced they will be showcasing their industry-leading data migration solution at the upcoming Nutanix .NEXT conference being held June 28-30, 2017 at the Gaylord National Resort and Convention Center in Washington, D.C. The .NEXT conference, themed "Building the Future of the Enterprise Cloud", is designed to equip IT professionals with the tools, knowledge, and network of people that can help them make real, tangible business impact in their organizations. Delegates who visit Sureline at booth B1 will be able to explore all the patented and award winning features of Sureline's SUREedge® Migrator solution which is Nutanix Ready Certified for Nutanix AHV.

Unique capabilities in the SUREedge® platform include an agentless architecture for ease of installation and minimal impact on production servers, a plan driven UI that allows tens, hundreds or thousands of servers to be migrated in an automated process, and automated transformations so that the migrated VMs are ready to run on Nutanix AHV. The software is easy to deploy, highly scalable, hardware and hypervisor agnostic and supports physical and virtual servers locally, in remote datacenters, and in private, public or hybrid clouds. For Nutanix AHV, it delivers significant reduction in cutover windows for VM's or physical servers with large data files or a large number of small files that change often. Their recent testing has demonstrated that cutover window times for an average size VM have been reduced by 50%.

With SUREedge Migrator, Nutanix can quickly and efficiently migrate customers' existing physical and virtual servers over to Nutanix AHV regardless of their current operating environment. SUREedge Migrator introduces a dramatic reduction in cutover times when migrating to AHV and is another example of Sureline's ongoing commitment to develop the most innovative and seamless migration

and disaster recovery software solutions that address the challenges faced by today's IT professionals.
