Engineering NV*

enterprise-class physical and virtual server, cloud, and container migration and disaster recovery software solutions, has announced a licensing agreement with Nutanix, (NASDAQ: NTNX), a leader in enterprise cloud computing. Under the terms of this agreement the Nutanix Consulting Services organization gains the ability to utilize Sureline's SUREedge® Migrator software, an enterprise-class software solution for migration of physical servers and virtual machines on any hypervisor or cloud to new infrastructures. This licensing provides the Nutanix Consulting Services team the ability to migrate workloads to new Nutanix AHV environments efficiently and reliably, thus allowing them to have their customers up and running to take advantage of their new infrastructure quickly. An additional advantage is the

complete automation for large scale migrations which saves time and money for the customer.

SUREedge Migrator is Nutanix Ready verified for Nutanix AHV, a powerful built-in virtualization solution. Nutanix can utilize SUREedge Migrator in their services offerings when onboarding new customers to Nutanix AHV, part of Acropolis. Nutanix Acropolis combines feature-rich software-defined storage, compute and networking with built-in virtualization in a turnkey hyperconverged infrastructure solution that can run any application at any scale.

"Sureline's SUREedge migration solution was incredibly easy-to-use and highly reliable," said Bert Leeman, IRC Engineering NV. "We were very impressed with how fast the software allowed us to migrate our VMs while automatically converting to Nutanix AHV."

"We are very excited to enter into this agreement with such an industry leader," said George Symons, COO, Sureline Systems, Inc. "We see customers migrating physical servers and VMs from a variety of hypervisors as well as VMs from public clouds to Nutanix AHV. The key benefits of SUREedge Migrator- is to migrate efficiently, reliably and error free without interrupting the production environment and with minimal downtime."

Unique capabilities in the SUREedge® platform include an agentless architecture for ease of

installation and minimal impact on production servers, a plan driven UI that allows tens, hundreds or thousands of servers to be migrated in an automated process, and automated transformations so that the migrated VMs are ready to run on Nutanix AHV. The software is easy to deploy, highly scalable, hardware and hypervisor agnostic.

About Sureline Systems

Sureline's patented and award winning SUREedge® is a proven enterprise-class software solution for Cloud Migration, Cloud Disaster Recovery, Datacenter Consolidation and Application Mobility. SUREedge reduces risk through encrypted and efficient data transmission, and reliable transformation of the entire application, its data and interdependencies from source server to the target server virtualization or Cloud. It is easy-to-deploy and manage through a single UI, with automated discovery, no agents to install, and is completely non-disruptive. SUREedge is source and destination agnostic working to/from any physical server, any hypervisor (including hyperconverged infrastructures), any cloud, and any storage. Customers worldwide trust SUREedge to meet their workload migration, disaster recovery and application mobility objectives. Sureline is headquartered in San Jose, CA., and its products and services are available through a global network of partners

About Nutanix Ready

Nutanix Ready identifies recommended applications and solutions that are trusted to enhance the Nutanix Delivery infrastructure. Products featured in Nutanix Ready have completed verification testing, thereby providing confidence in joint solution compatibility. Leveraging its industry leading alliances and partner eco-system, Nutanix Ready showcases select trusted solutions designed to meet a variety of business needs. Nutanix Ready demonstrates current mutual product compatibility, continued industry relationships and interoperability.
