

The Radicati Group Releases “Microsoft SharePoint Market Analysis, 2017-2021”

New study shows strong adoption of SharePoint Server and cloud-based SharePoint Online

PALO ALTO, CA, USA, June 26, 2017 /EINPresswire.com/ -- Palo Alto, CA – June 26, 2017 – The [Radicati Group](#)'s latest study, “Microsoft SharePoint Market Analysis, 2017-2021” offers a detailed

Microsoft SharePoint's breadth of functionality makes it one of the most unique enterprise solutions available to businesses today.”

Sara Radicati

analysis of market adoption of Microsoft SharePoint. The report provides user installed base and four year growth forecasts broken out by version, region, business size and industry for Microsoft SharePoint Online, Microsoft SharePoint Server and Microsoft SharePoint Foundation.

Microsoft SharePoint's breadth of functionality makes it one of the most unique enterprise solutions available to businesses today. SharePoint also continues to enjoy a strong developer ecosystem.

On-Premises deployments of SharePoint are rapidly declining as an increasing number of customers are opting for SharePoint Online, as part of Office 365. As adoption of all cloud-based solutions continues to see strong growth we expect to see more customers move to SharePoint Online. Cloud-based SharePoint deployments, offered either directly by Microsoft or through partners, currently represent 60% of all SharePoint deployments.
