

Fiberglass Pipes Market Outlook, Overview, Trend and Segment with Global 2022 Foresight

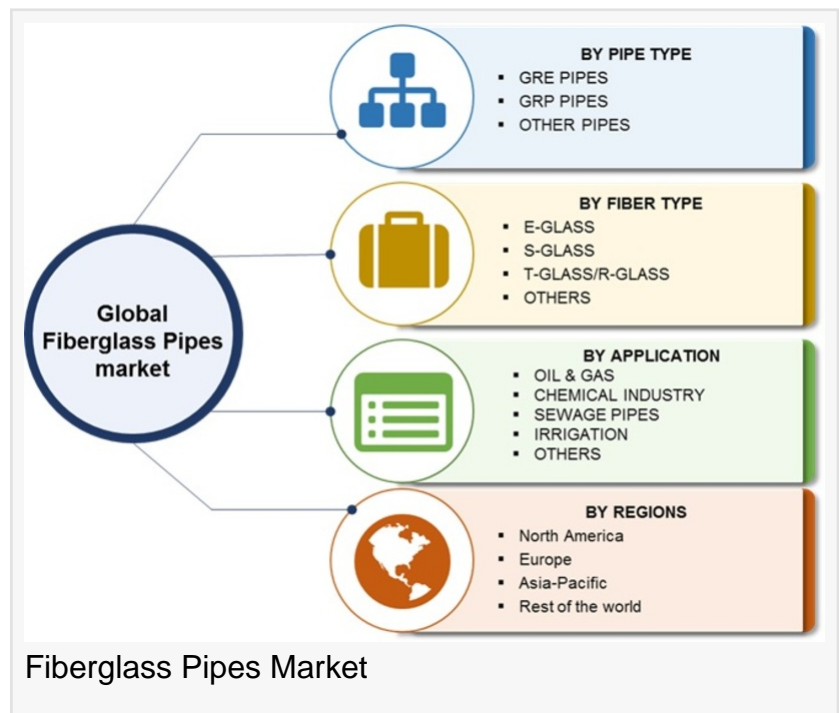

Market Research Future published a half-cooked research report on " Global Fiberglass Pipes Market Research Report "Market Analysis, Scope Progress & Trends

PUNE, MAHARASHTRA, INDIA, June 14, 2017 /EINPresswire.com/ -- [Global Fiberglass Pipes Market](#) information report by Type (GRE Pipes, GRP Pipes and Other pipes), by Fiber type (E-glass, T-Glass, S-Glass, R-Glass and Others), by End use (Oil & gas, Chemicals, Sewage, Irrigation and others) and Region - Global Forecast Till 2022

Fiber glass pipes are composite products manufactured from glass fiber reinforcements, which are enclosed by thermosetting resin. When compared with traditional pipes, these pipes

typically possess superior strength, high durability and tensile strength, low density and are virtually inert. They also have better mechanical properties that result in an extended product life.

The growth in the [fiberglass pipes market](#) is currently driven by their low maintenance costs when compared with traditional pipes. This is further supported by the increased production and exploration activities in the oil and gas industry and the rising demand in the sewage and water management applications. In addition to that, the rapid development of emerging economies are driving the high demand for fiber glass market.

Study Objectives of Global Fiber Glass Pipes Market

- To provide detailed analysis of the market structure along with forecast for the next five years of the various segments and sub-segments of the global [fiberglass pipes](#) market
- To provide insights about factors affecting the market growth
- To analyze the global fiberglass pipes market based on various tools such as Supply Chain Analysis, and Porter's Five Forces Analysis
- To provide historical and forecast revenue of the market segments and sub-segments with respect to regions and their respective key countries
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by material type, product, application and region
- To provide strategic profiling of key players in the market, comprehensively analyzing their core

competencies, and drawing a competitive landscape for the market

- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global fibre glass pipes market

Asia-Pacific is currently the largest market and is expected to remain so for fiber glass pipes due to the continuous increase in infrastructure projects, especially in China and India the increased focus on building urban structures, waste water, chemical and industrial applications are effectively contributing to this growth. Industries are relocating to these areas because of decreased labor cost and high demand for products. This trend is also expected to be witnessed around the Rest of the World as the demand increases for water and wastewater applications due to growing urban population. North America and Europe are expected to maintain their position in the market because of the increasing shale gas activities and oil & gas exploration. This is expected to be a key driving factor for the growth of global fiber glass pipes market.

Key Players

The key players of global fiber glass pipes market are

- Fibrex (U.S.)
- Graphite India Ltd. (India)
- Sarplast SA (Switzerland.)
- Kemrock Industries And Exports Limited (India.)
- Chemical Process Piping Pvt. Ltd.(India)
- Future Pipe Industries (India)
- Graphite India Limited (India)
- Hengrun Group Co. Ltd (China)
- Abu Dhabi Pipe Factory LLC (UAE)
- Saudi Arabian Amiantit (UAE)

Intended Audience

- Distributer & Supplier companies
- End Users
- Consultants and Investment bankers
- Government as well as Independent Regulatory Authorities

Product Analysis

- Product matrix which gives a detailed comparison of the market for different recycled product types

Additional Information

- Regulatory Landscape
- Pricing Analysis
- Macroeconomic Indicators

Geographic Analysis

- Geographical analysis across 15 countries

Company Information

- Profiling of 10 key market players
- In-depth analysis including SWOT analysis, and strategy information of related to report title
- Competitive landscape including emerging trends adopted by major companies
