

# Global Inspection Cameras Market to Grow at a CAGR Of 9.90% and Forecast to 2021

Wiseguyreports.Com Publish New Market Research Report On-"Global Inspection Cameras Market to Grow at a CAGR Of 9.90% and Forecast to 2021".

PUNE, INDIA, June 15, 2017 /EINPresswire.com/  
--

## [Inspection Cameras Market 2017](#)

The inspection cameras market comprises all the remote visual inspection (RVI) cameras. An inspection camera helps observe the areas that are out of reach. Inspection cameras can not only capture images but can also record videos. The trend of automation using inspection cameras will make inspection cameras more popular in the future. With automation, the inspection cameras will not only capture the images but also be able to take the decisions based on it.

The analysts forecast the global inspection cameras market to grow at a CAGR of 9.90% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global inspection cameras market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- APAC
- EMEA
- North America

The report, Global Inspection Cameras Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

#### Key vendors

- AMETEK
- Cognex Corporation
- FLIR Systems
- Olympus Corporation
- Sick

#### Other prominent vendors

- Fluke Corporation
- ifm electronic
- Testo

#### Market driver

- Increasing demand for videoscopy and boroscopy in automotive industry
- For a full, detailed list, view our report

#### Market challenge

- High initial cost for small companies
- For a full, detailed list, view our report

#### Market trend

- Increasing use of technology in surface vision
- For a full, detailed list, view our report

#### Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

## Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Market overview
- Global inspection cameras market by automotive application
- Global inspection cameras market by electrical/electronics application
- Global inspection cameras market by pharmaceutical industry application
- Global inspection cameras market by semiconductor industry application
- Global inspection cameras market by packaging industry application
- Global inspection cameras market by other industrial application

PART 07: Market segmentation by spectrum

- Market overview
- Global inspection cameras market by ultraviolet spectrum
- Global inspection cameras market by infrared spectrum
- Global inspection cameras market by visible spectrum

PART 08: Geographical segmentation

- Inspection cameras market in North America
- Inspection cameras market in EMEA
- Inspection cameras market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Impact of drivers on key customer segments
- Market challenges

- Impact of challenges on key customer segments

PART 11: Market trends

- Fully automated inspection cameras
- Increasing use of technology in surface vision
- Focus on quality certifications
