

Paul Troy of Towercomm LLC to be Featured on CUTV News Radio

MORRISVILLE, NORTH CAROLINA,
UNITED STATES, June 16, 2017
/EINPresswire.com/ --

Telecommunications is the world's most dynamic industry. Measure telecommunication against any other industry in the last 50 years and nothing comes close in terms of growth and innovation.

The remarkable opportunities modern technology affords us have changed our lives immeasurably, but with each passing day consumers are demanding faster speeds, higher capacity and more reliability.

"Telecom is not for the weak of heart," says Paul Troy. "You either love it 24/7/365 hair-on-fire or you need to move on. It's very challenging but very rewarding."

Troy is well-regarded in the industry as a communications Rockstar, a distinction earned from a long history of doing what needs to be done and never saying no. Today Troy is the President and CEO of TowerComm, a wireless telecommunications service provider.

For over 25 years TowerComm has offered the best trained technicians and most modern tools and equipment to its customer base of wireless carriers, wireless equipment providers and tower site owners.

"If it's wireless we're involved," says Troy. "We have the feet on the street, the actual crews who climb the towers and walk the rooftops for all the services this customer-driven market continues to demand for faster speeds."

Troy says most telecommunication companies fail on the financial side. Drawing on his extensive

experience at larger telecom companies, Troy says he's put models in place to ensure they know a job is profitable walking in. It's a different scale but the same application. TowerComm is a smaller company with billion-dollar company accountability.

"There's nothing in a telecom company I haven't done. I've climbed those towers myself. I'm a roll-up-your-sleeves guy," says Troy. "My goal is to grow this company to its full potential and mentor our people to achieve what they want. I want to make this company the best place to work. The sky is the limit."

CUTV News Radio will feature Paul Troy in an interview with Doug Llewelyn on June 20th and Jim Masters on June 27th at 11am EDT.
