

Software Defined Radios 2017 Global Market Expected to Grow at CAGR 11.82% and Forecast to 2020

WiseGuyReports.Com Publish a New Market Research Report On - "Software Defined Radios 2017 Global Market Expected to Grow at CAGR 11.82% and Forecast to 2020".

PUNE, INDIA, June 16, 2017 /EINPresswire.com/
--

The analysts forecast the [global SDR market](#) to grow at a CAGR of 11.82% during the period 2016-2020.

SDR are partially or wholly software-configured radios that use a common platform across various applications (defense, homeland security, and commercial). They provide a universal full-duplex radio module that can be used across all the platforms and can be configured in the real-time field to offer flexibility, versatility, efficiency, and longer service life from a single set of batteries, all while providing significant size, weight, and power (SWAP) advantages.

These radios have evolved as an efficient solution for secure and effective communication in the military, commercial, and homeland security sectors. Governments have initiated many projects for the development of SDR such as the US Joint Tactical Radio System (JTRS) program, ESSOR program, and SpeakEasy radio program. A major successful SDR venture is the JTRS that enables the armed forces to exchange data using a wide variety of new and existing communications systems.

Covered in this report

The report covers the present scenario and the growth prospects of the global SDR market for 2016-2020. To calculate the market size, the report considers the revenue generated in the overall market.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global (SDR) Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- BAE Systems
- L3 Communications Corp.
- Northrop Grumman
- Rockwell Collins
- Thales Group

Other prominent vendors

- Harris Corporation
- Raytheon
- Data Link Solutions
- ViaSat
- Rohde & Schwarz

Market driver

- Growing demand for effective communication systems
- For a full, detailed list, view our report

Market challenge

- Spectrum-management issues
- For a full, detailed list, view our report

Market trend

- Next-generation reconfigurable radio equipment
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table Of Contents – Major Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Market overview
- Market size and forecast

PART 05: Global aerospace and defense supply chain system

PART 06: Global aerospace and defense supply chain system

PART 07: Segmentation of global software defined radio by application

- Segmentation of global SDR market by application
- Global SDR market for defense application
- Segmentation of global SDR market for airborne
- Segmentation of global SDR market for land
- Segmentation of global SDR market for navy
- Global SDR market for homeland security
- Global SDR market for commercial

PART 08: Geographical segmentation

- Geographical segmentation of global SDR market 2016-2020
- SDR market in the Americas
- SDR market in EMEA
- SDR market in APAC

PART 09: Key leading regions

PART 10: Market drivers

PART 11: Impact of drivers

PART 12: Market challenges
