--

[Global Hospital Beds Market](#)

Description

Hospital beds are special types of beds used in healthcare facilities such as hospitals, clinics, and patient care centers to accommodate and to assist patients during treatment. ICUs are equipped with life support systems and automated hospital beds such as pediatric and neonatal beds, maternity beds, and surgical beds, which are used for the treatment of critically ill patients. They are also used by home-based users for home care services.

Covered in this report

The report covers the present scenario and the growth prospects of the global hospital beds market for 2017-2021. To calculate the market size, the report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.
