Each year, millions of pets come into shelters and too few people consider adoption when looking for a pet. Adopting dogs and cats in need from shelters and rescues and giving them a good home has been shown to give psychological, emotional and physical benefits to pet parents. Caring for a pet can provide a sense of purpose and fulfillment and lessen feelings of loneliness. And when you adopt, you can also feel proud about helping an animal in need!

Once you bring a pet home – it is critical to be sure they are fed the best ingredients possible to live a long and healthy life. Freshpet® has brought transformational change to the pet food industry as the first and only pet food brand to offer, real pet food fresh from the fridge. All the healthy, fresh meals are made in the USA using only the highest quality natural ingredients. Freshpet® believes all pets deserve to benefit from eating fresher, less processed foods just like we do to stay healthy. And they've heard from thousands of pet parents who have seen their pets become happier and healthier due to a fresh diet.

"We started Freshpet® because we believe our pets deserve fresher foods like what we'd cook at home. We know more and more pet parents are looking for healthier meal solutions that will help their pets live fuller, happier lives." said Scott Morris, Co-Founder of Freshpet®. "Freshpet® is also committed to helping all pets find homes, and live happy and healthy lives."
