[Building Panels Materials Market 2017](#)

Building panels are used to construct the external and internal features of a building. Specific types of panels can be used to insulate the interior parts of a structure. They can be in the form of pre-fabricated concrete blocks or structural insulated panels (SIPs). The surge in global population is prompting for the increased demand in utility construction and supporting infrastructure.

The analysts forecast the global building panel materials market to grow at a CAGR of 6.22% during the period 2017-2021.
