

New Cleaning Abrasive Product Line at Fred Meyer Stores in the Northwest Ideal for Bathroom, Kitchen, Grilling, Sanding

New to the NW and already a hit with media, Earthstone's award-winning green products offer proven alternatives to cleaning products that can cause harm.

VARIOUS CITIES:, OREGON, WASHINGTON, IDAHO, ALASKA, UNITED STATES, June 21, 2017 /EINPresswire.com/ -- SAFER, MORE EFFECTIVE NON-TOXIC CLEANING ABRASIVES IDEAL FOR DIY SPRING-SUMMER CLEANING INDOOR AND OUTSIDE TACKLE EVERYTHING FROM HARD WATER TOILET STAINS TO SOAP SCUM, PAINTED SURFACES AND RUST -- AND AS A PROVEN, BETTER ALTERNATIVE TO THE DANGERS OF WIRE GRILL BRUSHES

Fred Meyer has always been trusted to be a one-stop store. But now it is carrying a new line of all-natural cleaning abrasive products for easier, one-stop DIY spring and summer cleaning, offering customers safer, proven alternatives to:

“

Every year, 87,700 children alone are treated in hospital emergency rooms and 39 children on average die after ingesting toxic household chemicals. Our products are literally life savers!”

Laurie Brown, Chief Sales Officer, Earthstone International

- Dangerous wire grill brushes that can [flake off into your food](#), become ingested and send you to the ER; the CDC has had a warning about this risk since 2012! (GrillStone).
- Chemically-based soap scum, mold and mildew removers and toxic cleansers to remove hard water toilet bowl stains: (BathStone is a formidable alternative to poisonous and highly acidic cleaning products that rarely remove the stains in the toilet bowl).
- Chemically-based and caustic oven cleaners; and sponges and scrubbers that clog up: (KitchenStone -- the all-purpose kitchen cleaning abrasive that removes the burnt- on gunk and grime right off porcelain sinks, stoneware, ceramic tile,

tempered glass surfaces, steel and ceramic grates, and oven surfaces -- including tempered glass oven doors -- and ceramic stovetops).

- Sandpaper that bunches up, clogs and wears out right away (QuikSand).

The award-winning green product line is made from recycled, foamed glass waste from landfills by Earthstone International (based in Santa Fe: www.Earthstoneinternational.com), and has already won over people from around the country tired of using unhealthy cleaning products -- many that can make you sick (See LINKS) -- while becoming something of a Media Darling on national TV!

- GrillStone was featured on the Today show and a Good Morning America news segment about the lethal dangers of wire grill brushes that [the CDC has warned about](#) for the past 5 years!

- BathStone was [recently ranked #2 in the world](#) as the most effective bathroom cleaner.

- Individuals are voluntarily raving about how much they love to clean their toilets and bathrooms now, or how they can more effectively sand painted wood and rusted patio furniture now that they have discovered these products (SEE MEDIA LINKS AND TESTIMONIALS).

"Every year, 87,700 children alone are treated in hospital emergency rooms and 39 children on average die after ingesting toxic household chemicals like hydrochloric acid, according to Media Planet. That's why there's always a DANGER warning on these product labels," notes Laurie Brown, Chief Sales Officer for Earthstone International. "Products like KitchenStone, BathStone and GrillStone are effective, safer cleaning alternatives that prevent harm. Our products are literally life savers!"

Testimonials:

"GrillStone is an ingenious block that conforms to the shape of the surface to clean between the bars of the grate." -- Steve Raichlin's Barbecue Bible

"I clean apartments for a living (after resident have moved out). I will not use anything else to clean an oven or stovetop other than KitchenStone. On the bonus side you do not have to smell the fumes from oven cleaners (which will not always get all the burned on foods at the bottom of the oven). I highly

GrillStone: A safer, more effective alternative to wire bristle grill brushes that conforms to all sides of the grill and won't get into food.

QuikSand won't bunch up like traditional sandpaper and it gets the job done in faster and more effectively

recommend this product!" --Stacy Harbison

"BathStone is an amazing product!!! I have spent HOURS of research and tons of money trying to get hard water stains out of toilets. BathStone was under \$5 and worked in minutes!!!" -- Stacey Gray

"I used QuikSand to sand a double-wide garage door with layers of peeling old paint and bad spots in the wood. They made quick work of a job that could have taken much longer. These blocks wear down as you sand, so you should plan on buying several, depending on the size of your project. But they are my best tool discovery in years."-- W.P. Osborn
