

# Human Combination Vaccines Global Market Key Vendors – GlaxoSmithKline , Merck , Sanofi and Forecast to 2021

*The analysts forecast the global Human Combination Vaccines market to grow at a CAGR of 8.56% during the period 2017-2021*

PUNE, INDIA, June 21, 2017 /EINPresswire.com/

--

## [Global Human Combination Vaccines Market](#)

### Description

A vaccine is made up of inactive, partially killed or dead viruses, to stimulate the immune system against the pathogenic virus and produce antibodies against it. Vaccines are injected or orally administered. Animal vaccines provide immunity to the animal body against pathogens. They are composed of attenuated or dead virus strains and can be administered via the intramuscular, intradermal, or oral route.

Similarly, human vaccines are composed of inactivated or live attenuated virus particles and provide immunity to the human body against different pathogens and can be administered via the intramuscular, intradermal, oral, and subcutaneous route. The modern human vaccines are mostly composed of inactivated virus strains.

### Covered in this report

The report covers the present scenario and the growth prospects of the global Human Combination Vaccines market for 2017-2021. To calculate the market size, the report considers the sales of both branded and generic versions of human combination vaccines.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Human Combination Vaccines Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- GlaxoSmithKline
- Merck
- Sanofi

Other prominent vendors

- Daiichi Sankyo
- Serum Institute of India
- Takeda Pharmaceuticals

Market driver

- Rise in cases of infectious diseases
- For a full, detailed list, view our report

Market challenge

- Requirement of cold chain logistics
- For a full, detailed list, view our report

Market trend

- Government-sponsored programs
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?

- What are the strengths and weaknesses of the key vendors?

## Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Human combination vaccines: An overview

- Need for development of combination vaccines
- Technical challenges faced during formulation of combination vaccines
- Strategies for developing human combination vaccines

PART 06: Key clinical trials

PART 07: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 08: Market segmentation by vaccine type

- Human combination inactivated vaccines
- Human combination live attenuated vaccines

PART 09: Geographical segmentation

- Human combination vaccines market in Americas
- Human combination vaccines market in EMEA
- Human combination vaccines market in APAC

PART 10: Decision framework

## PART 11: Drivers and challenges

- Market drivers
- Market challenges

## PART 12: Market trends

- Government-sponsored programs
- Growing interest toward R&D of newer vaccines
- More focus on emerging countries
- Public-private initiatives
- Threat of bioterrorism
- Improvements in healthcare infrastructure

## PART 13: Vendor landscape

- Competitive landscape

## PART 14: Key vendor analysis

- GlaxoSmithKline
- Merck
- Sanofi
- Other prominent vendors
