London, 20 June 2017

800Comms – A Meaningful Conversation – AnyTime, AnyWhere and using AnyDevice.

Business is more mobile than ever, and this raises a question how to connect workforce with customers using Single Number with Collaborative Tools.

800Comms, Powered by BroadSoft, offers comprehensive packages, the most complete range on the Cloud Communications with business phone solutions, [unified communications](#), Hospitality Package, SD-WAN, [Mobile Device Management](#) and contact centre solutions.

800Comms packages offer 100s of features tailored to suit your needs, whether you're an individual or an SMB, at one office or many, or hospitality service provider or operating as a Contact Centre. – 800Comms have got all to match your needs. Your employees can use our services and features AnyTime, AnyWhere, on AnyDevice, whether they are at work, home or on the move.

800Comms offers a unified integration for Google, Drive, Salesforce, Microsoft, and over 50 other popular apps to provide a True-One-Place-Experience.

800UC offers business voice, conferencing, messaging and presence, Receptionist and Auto Attendant, screen sharing and file sharing, all the way up to virtual meeting rooms and high-definition video conferencing. The efficacy of 800UC is enriched with its seamless integration to 800Team. With 800Team you can chat, take notes, track tasks and share files. As an icing, [800Hub](#) keeps all applications together and combines your communications with your business.

With the growing Flexible Workforce Concepts, the Contact Centre is getting prevalent. At 800Comms, we offer cost-effective on-premises Contact Centre in conjunction with our technologically tested vendors, uniquely created for all geographic needs.

Besides your voice communications need, 800Comms has solutions, based on Cisco Meraki, to manage your business-critical mobile devices, Macs, PCs, and your entire network with comprehensive monitoring, diagnostics and security, and CloudGenix SD-WAN - a vendor-independent solution for networking flexibility and security perimeter.
