Market Overview and Drivers:

Over the past few years, the global market has seen a remarkable growth due to increasing demand of green building. This results into a higher growth rate at the end of forecasted period. As per the market analysis, different factors have created boom in the global liquid roofing market are replacing traditional methods of roofing, easy installation, and increasing demand from residential properties.

The Liquid Roofing Market is majorly driven by the growing residential application across the globe. As per analysis, the global construction market is boosting the overall market which in turn has created a platform for liquid roofing market. It will result into ample scope for the domestic as well as international players to cater the market.

Asia Pacific is Projected to be the Largest Market during the Forecast Period:

Geographically, Asia-Pacific is expected to be the fastest growing as well as the largest market for liquid roofing by covering around 35% of the total market size. The growing population and urbanization in the emerging economies with increasing need for infrastructure in the region is driving the market of liquid roofing over the next six years, especially in APAC. North America and Europe would rank second and third position respectively.

Scope of the Study:

The scope of the study categorizes the Liquid Roofing Market as types and application.

•By Types

- o Polyurethanes
- o Water-based Acrylic
- o MMA (Polymethyl methacrylate)
- o Polyurea Systems
- o Water Dispersible Polymers
- o Others

•By Application

- o Residential
- o Non-residential

About Market Research Future:

At Market Research Future (MRF), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRF team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.

In order to stay updated with technology and work process of the industry, MRF often plans & conducts meet with the industry experts and industrial visits for its research analyst members.
