

# Kidney Stones Market Foreseen to Grow USD 3 billion till 2022

*Kidney Stones Market Information, by types (calcium, uric acid, struvite and cystine), by diagnostic tests (CT scan, X-rays, ultrasound scan), by treatment*

PUNE, MAHARASHTRA, INDIA, June 22, 2017 /EINPresswire.com/ -- Market Highlights

The global market for kidney stones is expected to reach USD 3 billion during the period 2016 to 2022 from USD 1.2 billion in 2015. The global [kidney stones market](#) has been evaluated as rapidly growing market and expected that the market will reach high growth figures. There has been a tremendous growth in the number of people getting diagnosed with nephrolithiasis.

People with obesity, diabetes and gout are more prone to be diagnosed with kidney stones than healthy people. Development of the kidney stones has a lot to do with the eating habits and the intake of fluids in the body. Small kidney stones can be treated with medical therapy and hydrotherapy. But the large kidney stones need to be removed with the various procedures that are available to treat nephrolithiasis.

## Intended Audience

## Market Research Analysis:

In the coming years, the kidney stones market will advance globally more than it has in the past several years. There is no specific age for the development of the kidney stones. It can develop at any age. However children under age 12 and people above age 45 are more prone to the nephrolithiasis. North America is the region leading the market of kidney stones. However, the prevalence of kidney stones is increasing rapidly in the Asia-Pacific region where India being the major country having huge number of patients diagnosed with nephrolithiasis. Kidney Stones industry is going to be a major money spinner in the near future.
