

Global Ground Support Equipment Market Size, Share, Trends and Forecast by 2022

OrbisResearch.com has published new research report on "Global Ground Support Equipment Market Research Report and Forecast to 2017-2022" to its database.

DALLAS, TEXAS, UNITED STATES, June 23, 2017

[/EINPresswire.com/](http://EINPresswire.com/) -- According to Statistics MRC, the Global Ground support equipment market is accounted for \$11.8 billion in 2015 and is expected to reach \$20.06 billion by 2022 growing at a CAGR of 11.0%. Increasing number of air passengers and high expenditure by airport authorities on eco friendly ground support equipment to improve their operational efficiency are some of the factors driving the market. However, usage of worn equipment is restricting the market growth. Availability of Just-In-Time Spares is the key challenge to the market.

Electric Ground Support Equipment segment is expected to witness a highest share during the forecast period. The favourable growth is attributed to increasing spending by aviation authorities towards adopting eco-friendly ground support equipment. North America accounted for the largest share in the market. However, Asia Pacific is expected to witness the highest CAGR during the forecast period owing to supportive government measures for airport infrastructure development and growing GDP of the region.

Some of the key players in global ground support equipment market include Weihai Guangtai Airports Equipment Co., Ltd., Gate GSE, Tug Technologies Corporation, IMAI Aero-Equipment Mfg.Co. Ltd., Mallaghan Engineering, Ltd., Aviapartner, Nepean Transport Pty Ltd., Teleflex Lionel-DuPont (TLD), John Bean Technologies Corporation, Cavotec SA and Toyota Industries Corp.
