The Arkansas Mesothelioma Victims Center wants a Navy Veteran with mesothelioma in Arkansas to not confuse mesothelioma compensation with a VA disability monthly check. A VA disability check for a Navy Veteran with mesothelioma might be worth a little over \$1000 per month. A mesothelioma financial compensation settlement could be worth hundreds of thousands of dollars or more. There is a very big-difference between these two. The variable on mesothelioma compensation for a US Navy Veteran who was exposed to asbestos is exactly how or where were they were exposed to asbestos.

As an example, if a former US Navy machinists mate or boiler technician was exposed to asbestos while their ship was deployed and then assigned to their ship at a US Navy Shipyard while it was undergoing a retrofit or overhaul the potential compensation claim could dramatically increase.
