

Global Security Testing Market is Driven by Cloud Based Security Solution and Web & Mobile applications Protection-2022

OrbisResearch.com has published new research report on "Global Security Testing Market Research Report and Forecast to 2017-2022" to its database.

DALLAS, TEXAS, UNITED STATES, June 27, 2017

/EINPresswire.com/ -- According to Statistics MRC, the [Global Security Testing Market](#) is accounted for \$2.8 billion in 2015 and expected to grow at a CAGR of 19.9% to reach \$9.98 billion by 2022. Factors such as need for protection against cyber security threats, increased need for Cloud based security solution and protection for Web & Mobile applications are driving the market growth. However, lack of domain related tools, more implementation cost for innovation & deployment affects the business and limited knowledge & skills about security testing domain will hamper market growth. Connected devices and BYOD trends will provide ample opportunity for the market growth.
