

Republic of Korea Hydropower (Large, Small and Pumped Storage) Revenue, Price and Gross Margin Research Report 2030

PUNE, MAHARASHTRA, INDIA, June 27, 2017 /EINPresswire.com/ --

SUMMARY

WiseGuyReports published new report, titled "Hydropower (Large, Small and Pumped Storage) in Republic of Korea, Market".

"Hydropower (Large, Small and Pumped Storage) in Republic of Korea, Market Outlook to 2030, Update 2017 - Capacity, Generation, Regulations and Company Profiles" is the latest report from the industry analysis specialists that offer comprehensive information and understanding of the hydropower market in Republic of Korea.

The report provides in depth analysis on global renewable power market and global hydropower market with forecasts up to 2030. The report analyzes the power market scenario in Republic of Korea (includes conventional thermal, nuclear, large hydro and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes hydro, small hydro, biopower and solar PV) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in Republic of Korea hydropower market. A detailed coverage of renewable energy policy framework governing the market with specific policies pertaining to hydropower is provided in the report. The research also provides company snapshots of some of the major market participants.

The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.

Scope

The report analyses global renewable power market, global hydropower market, Republic of Korea power market, Republic of Korea renewable power market and Republic of Korea hydropower market. The scope of the research includes –

- A brief introduction on global carbon emissions and global primary energy consumption.
- An overview on global renewable power market, highlighting installed capacity trends, generation trends and installed capacity split by various renewable power sources. The information is covered for the historical period 2006-2016 (unless specified) and forecast period 2017-2030.
- Renewable power sources include wind (both onshore and offshore), Hydropower (Large, Small and Pumped Storage), concentrated solar power (CSP), small hydropower (SHP), biomass, biogas and geothermal.
- Detailed overview of the global hydropower market with installed capacity and generation trends, installed capacity split by major hydropower countries in 2016 and key owners information of various regions.
- Power market scenario in Republic of Korea and provides detailed market overview, installed capacity and power generation trends by various fuel types (includes thermal conventional, nuclear, large hydro and renewable energy sources) with forecasts up to 2030.
- An overview on Republic of Korea renewable power market, highlighting installed capacity trends (2006-2030), generation trends(2006-2030) and installed capacity split by various renewable power sources in 2016.
- Detailed overview of Republic of Korea hydropower market with installed capacity and generation trends and major active and upcoming hydro projects.
- Deal analysis of Republic of Korea hydropower market. Deals are analyzed on the basis of mergers, acquisitions, partnership, asset finance, debt offering, equity offering, private equity (PE) and venture capitalists (VC).
- Key policies and regulatory framework supporting the development of renewable power sources in general and hydropower in particular.
- Company snapshots of some of the major market participants in the country.

Key points to buy

- The report will enhance your decision making capability in a more rapid and time sensitive manner.
- Identify key growth and investment opportunities in Republic of Korea hydropower market.
- Facilitate decision-making based on strong historic and forecast data for hydropower market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects.

Table of Contents

1 Table of Contents	2
1.1 List of Tables	5
1.2 List of Figures	6
2 Executive Summary	7
2.1 Fall in OECD Countries' Carbon Emission despite a Global Rise during 2010-2015	7
2.2 Technological Advancements and Government Support Driving Global Renewable Power Installations	7
2.3 Top 10 Countries Account for Over 70% of Hydropower Capacity	7
2.4 Growth in Korean Power Market Consistent with Burgeoning Economy	8
2.5 Excepting for Small Hydro, No Capacity Additions for Hydropower Expected In Republic of Korea	9
3 Introduction	10
3.1 Carbon Emissions, Global, 2001-2016	10
3.2 Primary Energy Consumption, Global, 2001-2025	12
3.3 Hydropower, Global, Technology Definition and Classification	14
3.4 Report Guidance	15
