

# Thiodiglycol Market Trend and Global Forecast to 2023

*Global Thiodiglycol Market Information- by Application (Additive, Solvents, Paints & Coating, Dyestuffs, Pesticides, Antioxidant*

PUNE, MAHARASHTRA, INDIA, June 27, 2017 /EINPresswire.com/ -- APAC region is predicted to lead the market during the forecast period due to the high consumption of thiodiglycol in the growing textile industry, especially in dyestuff application, including the countries China, India, South Korea, Japan, and others countries. As a result, increasing demand for textile industry to fulfill the global consumption has been the major driver for [thiodiglycol market](#) growth. The consumption of paint & coatings, and dyestuff, in APAC region is highly in China, followed by India, Japan, and Thailand which propel the demand of thiodiglycol market. In-addition, growing population in developing markets will drive future demand for thiodiglycol market.

Furthermore, thiodiglycol is also used in rubber industry. Growing construction output, automotive industry, and various manufacturing activities are some of the key factors driving the growth of the industrial rubber market likewise, for thiodiglycol market. The Asia Pacific region has been the largest rubber consuming region due to its economic and population growth. According the Thai Rubber Association, the Asia Pacific region presently accounts for 57% of global rubber demand and will remain the world's strongest growth market for rubber. Whereas, Asia Pacific region accounted for the largest agriculture industry which makes huge opportunity for thiodiglycol market. In addition to this, China with large population among all countries of Asia Pacific region, make a great progress in agriculture industry. Owing to the increase population and the positive growth of industrialization and urbanization, huge agricultural resources is becoming the driving factors to Chinese agricultural industry, which is another driving factor of thiodiglycol market. Furthermore, India holds the second largest agricultural industry, which makes huge opportunity for thiodiglycol market in this region. Whereas, North America holds second position for [global thiodiglycol market](#) followed by Europe region. Moreover, Middle East, Latin America and South Africa is an emerging region for thiodiglycol market due to increasing consumption of thiodiglycol in various industries such as pharmaceutical, agriculture, and other industries.

## Key Players:

- MAOMING YUNLONG INDUSTRIAL DEVELOPMENT CO., LTD. (China)
- SONGWON (South Korea),
- LANXESS (Germany)
- Huntsman International LLC (US)
- The Dow Chemical Company (US)
- Eastman Chemical Company (US)

## Segmentation

The global thiodiglycol market is majorly segmented on the basis of application, end users and region. Based on application of thiodiglycol the market is segmented into as additive, solvents, paints

& coating, dyestuffs, pesticides, antioxidant, and others. Among all applications thiodiglycol is highly used as dyestuffs and antioxidant. On the other hand, based on end user the market segmented into textile, rubber, pharmaceutical, agriculture, and other, and based on region market is segmented into North America, Europe, APAC, Latin America, and Middle East & Africa.

#### Study Objectives of Thiodiglycol Market:

- To provide detailed analysis of the market structure along with forecast for the next 7 years of the various segments and sub-segments of the Global Thiodiglycol Market
- To understand the supply and demand dynamics including supply and consumption concentration mapping
- To provide region level market analysis and future outlook for North America, Europe, Asia, and Rest of the World (ROW) and their countries
- To provide competitor positioning of the market
- To provide company profiling of major players in the market along with their production and capacity
- To provide regional trade analysis
- To evaluate historical market trends, patents and technologies, and current government regulatory requirements that are relevant to the market
