

# PillStashios to exhibit at SuperZoo Show a new line of edible pill and medication containers for dogs.

HOPKINS, MINNESOTA, USA, June 27, 2017 /EINPresswire.com/ -- PillStashios are a hollow, edible container with a convenient snap-lid to lock in the desired medications. They are designed to lock in scent and taste while providing an easy way to hide medicines, vitamins and supplements so dogs willingly take them. See PillStashios at SuperZoo Booth #2706, July 25-27.

PillStashios come in three irresistible flavors of Apple Bacon, Blueberry Chicken and Cranberry Turkey, all inspired by nature and designed to be uniquely appealing to dogs. They are made from all natural ingredients and are grain-free, gluten-free and soy-free. Plus PillStashios contain a high formulation of crude protein at 25% and are lower calorie treats.

PillStashios come in two sizes, small and large, to easily hold industry standard capsule sizes for dogs. And with the snap-lid design, PillStashios easily holds liquid, powder or capsules, and will disguise those for easy consumption.

“We enlisted the help of engineers who are experts in designing seals to create the perfect edible container,” stated Mike Smith, PillStashios founder. “With PillStashios, you won’t need to fumble with products that dry out and crumble or are hard to use. And there’s no longer a need to keep a jar of peanut butter just for giving the dog its pill, and then having to clean up the floor after it leaves a mess everywhere. Simply Stash, Snap and Serve. It’s that easy!”
