

The Industry's Best Noise-Canceling, Privacy Microphone Just Got Better.

*Keep private conversations,
transcriptions and recordings private!*

SEATTLE, WASHINGTON, USA, June 28, 2017 /EINPresswire.com/ -- Talk Technologies (talktech.com) the international leader in voice attenuating microphones, recently launched a new [Stenomask](#). The [Steno SR](#) microphone allows healthcare, security, legal and business professionals to communicate and transcribe with their voice in complete privacy, anywhere.

Private voice communication anywhere

Ideal for use in open offices and public spaces, the Steno SR series guarantees absolute voice privacy and a crystal-clear sound signal while simultaneously eliminating all background noise. Engineered to replicate the noise proofing properties of the world's premiere sound booths the Steno SR yields 100% noise cancellation and the patented technology makes it the most accurate microphone on the market today.

Stenomask is compatible with all [speech recognition](#) software and can be used with any type of device including, phones, tablets, computers, recorders, transmitters, two way radios and amplifiers. Wherever there is a microphone input, you can use a Stenomask.

Steno SR highlights

- The most accurate noise cancelling, speech recognition microphone available
- Decreases potential security risks and protects the privacy of individuals' information
- Not only does the Stenomask allow complete privacy, it also eliminates all ambient or background noise ensuring a crystal-clear recording
- Lightweight, affordable and road worthy durability, backed by the industry's best warranty
- Compatible with all speech recognition software including Dragon
- Several models to choose from including a removable hands free option
- Domestically manufactured, assembled and tested in house
- No start up time or learning curve, simply plug in and go

"Using Stenomask eliminates background noise in our busy workplace while at the same time providing a private and accurate microphone for speech recognition. We don't require a private room or office to take voice notes, Stenomask can be used anywhere."

K. Somner, B.C. Ministry of Health
