

Web Application Firewall Global Market Share, Size, Trends and Growth 2017-2021

Wiseguyreports.Com Publish New Market Research Report On-“Web Application Firewall Global Market Share, Size, Trends and Growth 2017-2021”.

PUNE, INDIA, June 28, 2017 /EINPresswire.com/
--

[Web Application Firewall Market 2017](#)

Executive Summary

A WAF is an application security that is deployed between a web client and a web server. WAF performs a deep inspection of every request and response in every form of web traffic. WAF helps detect and deflect threats in HTTP and HTTPS traffic, provides alerts, and blocks attack traffic near its source before it reaches the customer origin. WAF can be deployed at the edge of the network rather than in a data center and helps to identify and mitigate suspicious traffic without affecting the performance of the origin server.

The analysts forecast the global web application firewall market to grow at a CAGR of 18.58% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global web application firewall market for 2017-2021. To calculate the market size, the report considers revenue generated from the sale of WAF solutions.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Web Application Firewall Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and

its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Akamai Technologies
- Barracuda Networks
- Citrix Systems
- F5 Networks
- Imperva

Other prominent vendors

- A10 Networks
- Anchiva Systems
- Applicure Technologies
- Bee Ware
- Cloudflare
- DBAPPSecurity
- DenyAll
- Fortinet
- IBM
- Juniper Networks
- NSFOCUS
- Penta Security Systems
- Positive Technologies
- Qualys
- Radware
- Sangfor Technologies
- Sophos
- Trustwave
- United Security Providers
- Venustech

Market driver

- Growing dependence on the Internet
- For a full, detailed list, view our report

Market challenge

- High cost of deployment
- For a full, detailed list, view our report

Market trend

- Increase in the number of DDoS attacks
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline
- Types of web threats
- Advantages and features of WAF
- Benefits of the implementation of WAF
- Consequences of web application threats
- Architecture of WAF

PART 05: Market highlights

PART 06: Economic outlook

- Global economic overview and its impact on the market and vendors

PART 07: Market landscape

- Comparison of security technologies for protecting the web
- Market overview
- Market size and forecast
- Market assumptions

PART 08: Five forces analysis

PART 09: Market segmentation by deployment model

- Global WAF market by deployment model
- Global on-premises WAF market
- Global cloud-based WAF market

PART 10: Market segmentation by end-user

- Global WAF market by end-user
- Global WAF market in e-commerce sector
- Global WAF market in BFSI sector
- Global WAF market in government sector

PART 11: Geographical segmentation

- Global WAF market by geography
- Americas
- APAC
- EMEA

PART 12: Decision framework

PART 13: Drivers and challenges

- Market drivers
- Market challenges

PART 14: Market trends

- Popularity of cloud-based WAF
- Increase in the number of DDoS attacks
- Evolution of next-generation (NG) WAF
