Description

Meat substitutes, also called meat analog, mock meat, faux meat, or meat alternatives, are the healthy replacement to meat. They resemble chemical characteristics and aesthetic qualities such as flavor, taste, appearance, and the basic texture of meat. Factors such as increasing health consciousness of people across the globe, change in dietary plans, outbreak of animal diseases, and increased need for an alternative to meat due to harmful effects of over-consumption of meat are responsible for the demand for meat substitutes.
