PUNE , MAHARASHTRA, INDIA, June 29, 2017 /EINPresswire.com/ -- [Anesthesia Drugs](#) Industry

Description

Wiseguyreports.Com Adds "Anesthesia Drugs -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

United States Anesthesia Market is expected to be more than US\$ 4 Billion by 2022. This growth is driven by increasing incidence of cardiovascular cases, growing old age population and rising number of urgent surgeries in United States. Private as well as public health insurers also help to boost this market as they consider anesthetic products in their reimbursement policy.

General Intravenous Anesthesia is the Leading Segments in the United States Anesthesia Market

General intravenous anesthesia is the leading segments in the United States Anesthesia Market. Propofol, Benzodiazepines Class, Fospropofol Disodium, Ketamine, Methohexital Sodium, Pentobarbital, Etomidate and Fentanyl are commonly used general intravenous anesthesia in the United States. Among these anesthesia, Propofol and Benzodiazepines Class are the leading anesthesia drugs which hold more than 75 percent combined market share in 2016.
