

RedmineUP offers Redmine hosting in SaaS model and enters new markets

Redmine developer RedmineUP recently enters new markets and Introduced fully-featured Redmine system hosted in the cloud provided in Software-as-a-Service model

RedmineUP

NEW YORK, NEW YORK, USA, July 3, 2017 /EINPresswire.com/ -- Going

forward towards rising demand for a software allowing not only for project management but for a complete management of all business processes, [RedmineUP](#) introduced a new product in offer - [Redmine Hosting](#). It is offered in SaaS model (Software as a service) and is an application that includes open sourced task management Redmine system with additional extensions, hosted in the cloud. It is available for a convenient monthly fee, starting at \$29/month.

It let companies optimize their spendings on IT infrastructure, and manage business process and projects faster. As the cloud app does not require time and resources for installation and configuration, it can generate on average \$2000 of savings. Data is stored on advanced and safe server infrastructure and backed up daily. Plugins allow for convenient Agile project management, as well as managing billing, CRM, helpdesk, and other processes.

Moreover, the company expands into Germany, France, Spain, Brazil, Portugal, Poland and Japan to meet rising demand from local customers. RedmineUP offered localized version of the website and are actively starting cooperation with new partners. Apart from the regular presence, it already has partners in primary markets of US, Spain, and Japan. Moreover, opened local representatives in Bulgaria and Poland.

RedmineUP started in 2010, being the first commercial developer of plugins for open source platform Redmine. The system is growing in popularity as a bug tracker and solution to manage tasks, IT teams and projects. The company serves customers from over 100 countries and very diverse industries. Company and its products are well recognizable in Redmine environment. They are used by over 40.000 registered users and have been downloaded over 400.000 times.

Among clients, there are 25 companies from Fortune 500 lists, and such well-known organizations like NASA, Apple, Volkswagen, Samsung, Toshiba, France Telekom, Ikea, Fujitsu, Schneider Electric and Cisco.

Apart from companies, there are also NGO and universities, among which are prestigious Ludwig-Maximilians-Universität München, Australian National University, University of Florida or the University of Arizona.
