## Global Background Music Market

### Description

Background music is an integral part of modern commercial space like malls, retail stores, transit, elevators and other public spaces. This kind of music is intended for passive listening, and it helps in improving the ambience of the place. It is also seen to affect the customer's mood positively, resulting in better shopping experiences for the customers and the retailers. The increase in the number of commercial spaces, high preference for entertainment, and growth in the tourism sector are the major factors that are driving the market growth.

### Scope of the Report:
