

Robot Gears and Sprockets 2017 Global Market Expected to Grow at CAGR Of 7.43% and Forecast to 2021

Wiseguyreports.Com Publish New Market Research Report On-"Robot Gears and Sprockets 2017 Global Market Expected to Grow at CAGR Of 7.43% and Forecast to 2021".

PUNE, INDIA, July 3, 2017 /EINPresswire.com/ --

[Robot Gears and Sprockets Market 2017](#)

Executive Summary

Gears and sprockets are the aiding components for the movement of mobile industrial robots. These components assist the industrial robots to display rotational and directional motion and help to shift power and motion from one axis to another. With industries adopting automation at a high rate, industrial robots are expected to form a major part of this evolution due to the benefits offered in enhancing productivity and efficiency.

The analysts forecast the global robot gears and sprockets market to grow at a CAGR of 7.43% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global robot gears and sprockets market for 2017-2021. To calculate the market size, the report considers applications like material handling, assembly line, welding, and painting.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/1482557-global-robot-gears-and-sprockets-market-2017-2021>

The report, Global Robot Gears and Sprockets Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion

of the key vendors operating in this market.

Key vendors

- DAVALL GEARS
- Mitsubishi Heavy Industries
- Nabtesco
- STOBBER

Other prominent vendors

- Bevel Gears
- Gear Motions
- SPINEA
- Stock Drive Products/ Sterling Instruments
- VEX Robotics

Market driver

- Increasing investment in robotics by SMEs
- For a full, detailed list, view our report

Market challenge

- Emergence of low-cost gears and sprockets manufacturers in Asia
- For a full, detailed list, view our report

Market trend

- Integration of IoT in robotics
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by product

- Market overview
- Global robot gears market
- Global sprockets market

PART 07: Market segmentation by application

- Market overview
- Global robot gears and sprockets market by material handling
- Global robot gears and sprockets market by assembly line
- Global robot gears and sprockets market by welding
- Global robot gears and sprockets market by painting

PART 08: Geographical segmentation

- Market overview
- Robot gears and sprockets market in APAC
- Robot gears and sprockets market in Americas
- Robot gears and sprockets market in EMEA

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Adoption of customized robots
- Integration of IoT in robotics
- Advancements in robotic vision
- Advancements in actuator technology
