

Helion Automotive Technologies Ranked #69 Out of 501 Top Managed Services Providers in the World

TIMONIUM, MD, UNITED STATES, July 10, 2017 /EINPresswire.com/ -- Helion Automotive Technologies, the retail automotive industry's leading Information Technology (IT) managed services provider (MSP), today announced it has been ranked # 69 out of 501 top managed services providers in the world according to the [2017 MSPmentor 501 Global Edition - Worldwide Company Rankings](#). The list is compiled annually by MSPmentor.net and is widely recognized as the IT industry's most respected rankings.

"The fact that Helion is among the top MSPs in the world demonstrates the degree to which the automotive industry recognizes and embraces the importance of technology to current and future business operations," said Erik Nachbahr, founder and president of Helion Automotive Technologies.

"In the last ten years the auto industry has been completely transformed by technology and there is still much more change ahead."

Helion's service offerings to auto dealerships includes end-to-end management of hardware infrastructure, software applications support, Help Desk support, data and cybersecurity solutions, communications and more.

Helion currently provides IT managed services to more than 650 auto dealerships and 28,000 end users. The company handles an average 300 Help Desk calls every day and resolves more than 6,000 IT issues per month. In 2016 Helion expanded into heavy-duty trucking and currently supports 33

commercial truck dealerships.

Each year MSPmentor.net, a leading online resource and destination for managed services providers, compiles the list of company rankings by data collection and analyses of MSP business models, technologies, vertical markets and revenues. The MSP 501 ranking features IT services firms from virtually every corner of the earth, both large and small.
