

# Underground Gas Storage Market 2017-By Assess Your Competitor's Planned Underground Gas Storage Sites and Capacities

PUNE, MAHARASHTRA, INDIA, July 4, 2017 /EINPresswire.com/ -- SUMMARY

WiseGuyReports published new report, titled "Global Capacity and Capital Expenditure Outlook for Underground Gas Storage".

The underground gas storage industry is expected to grow by around 22% in terms of working gas storage capacity, over the next four years. Among regions, FSU and Europe are expected to contribute most to the global capacity growth. The Middle East is expected to double its working gas capacity by 2021, the highest among all the regions. Among countries, Russia will drive most of the global capacity growth and would account for nearly 25% of the global capital spending on the planned gas storage sites.
