

Global Perfusion Imaging Market is expected to grow at a CAGR of 8.2 % till 2023

Perfusion imaging Market Information; By Methods (Microspheres, Computed Tomography (CT), Magnetic Resonance Imaging (MRI)); by Applications - Forecast to 2023

PUNE, MAHARASHTRA, INDIA, July 5, 2017 /EINPresswire.com/ -- Market Highlights

Major Key Players are Apollo Medical Imaging Technology Pty. Ltd., Cigna, KMH labs, Novadaq Technologies Inc., GE Healthcare, Siemens Health, Philips Healthcare, Toshiba Medical Systems, NeuSoft"

Market Research Future

Market research future has a half cooked research report on [global perfusion imaging market](#). The global perfusion imaging market is growing at an average rate and is expected show the similar trend during forecast period.

Perfusion imaging involves passage of fluid through the blood vessels of an organ and scanning, the flow of perfusion quality and quantity deviations from the normal using a number of medical imaging modalities. Radioactive material called tracers are mixed with blood and are injected into the organ to be studies using photographs by a special gamma camera which reveals qualitative and quantitative changes

based on the supply of blood.

Perfusion imaging market is a product and technology advancement driven market. The advancements in technology such as positron tomography which allows for qualitative real data about the organ under study. The latest development involves development of shorter life time radioactive materials thus reducing the radioactive exposure of the patient.

Single photon emission computed tomography is the latest technological advancement for perfusion imaging and is being seen as an alternative to positron emission tomography (PET).

The rise of ageing population coupled with the rising cases of cardiac problems is the most important factor driving the market. Collaboration between large players and hospitals helps to reduce the costs and results in lower maintenance costs. It also results in greater market penetration and reduced marketing times and costs.

Major Market Players:

- Apollo Medical Imaging Technology Pty. Ltd.,
- Cigna, KMH labs,
- Novadaq Technologies Inc.,
- GE Healthcare,
- Siemens Health,
- Philips Healthcare,
- Toshiba Medical Systems,

- NeuSoft,
- Bracco,
- Lantheus Medical Cardiac Imaging Solutions Inc.,
- Perimed AB.,
- Positron, Aetna Inc.

Test the market data and market information presented through more than 50 market data tables and figures spread over 80 numbers of pages of the project report. Avail the in-depth table of content (TOC) & market synopsis on “[Global Perfusion imaging Market Research Report – Forecast to 2023.](#)”

Segmentation:

The global perfusion imaging market is segmented on the basis of methods. Based on the methods, the market has been segmented as microspheres, computed tomography (CT), magnetic resonance imaging (MRI), nuclear medicine and other. Based on the applications, the market has been segmented as ventilation perfusion imaging, myocardial perfusion imaging, functional brain imaging, testicular torsion detection and other.

Table of Content

- 1 Introduction
 - 1.1 Definition
 - 1.2 Scope of Study
 - 1.2.1 Research Objective
 - 1.2.2 Assumptions & Limitations
 - 1.2.2.1 Assumptions
 - 1.2.2.2 Limitations
 - 1.3 Market Structure:
- 2 Research Methodology
 - 2.1 Research Process:
 - 2.2 Primary Research
 - 2.3 Secondary Research:
- 3 Market Dynamics

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications,

end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
