

Sterilization Technology Market is Expected to Grow at a CAGR of 15.4% from 2016 to 2023

Sterilization Technology by type of sterilization (Gamma Radiation, Electron Beam Radiation, Filtration, Ionizing), by process by end user - Forecast to 2023

PUNE, MAHARASHTRA, INDIA, July 7, 2017 /EINPresswire.com/ -- Market Highlights

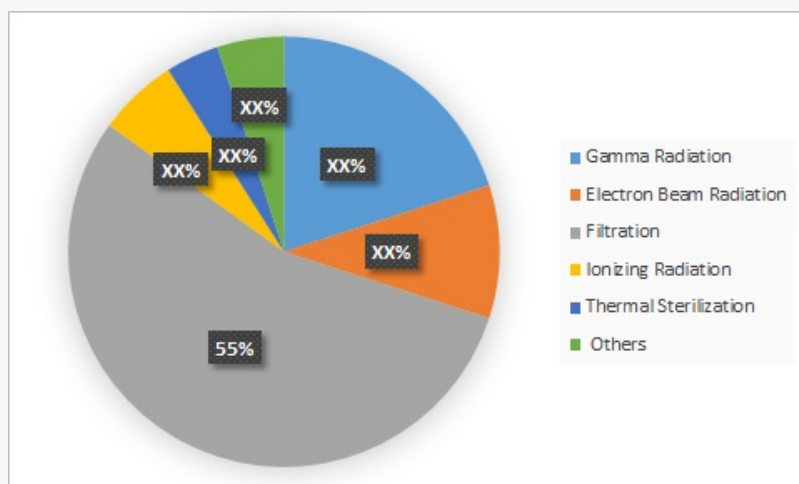

Global [Sterilization technology market](#) was about is expected to reach US\$ 15.84 billion by 2023 at a CAGR of 15.4% during forecast period 2017 to 2023. Emphasis on patient safety and use of aseptic techniques by healthcare providers in delivery of care favor the growth of this market. Large number of market players are involved in the production of sterilization devices restricting new entrants is a restrain of this market.

Key players of Global Optogenetic Market:

- Coherent Inc.,
- Thorlabs Inc.,
- Scientifica,
- Laserglow technologies,
- Regenxbio Inc.,
- Addgene,
- UPenn Vector Core
- Jackson Laboratories.,
- Cobalt International Energy, Inc.
- others.

Commenting on the report, an analyst from Market Research Future (MRFR)'s team said: "The demand for sterilization technology is increasing across the globe. Increase in chronic disease increase in the demand for surgical procedures thus favoring the growth of sterilization technology market. Patient safety is a major goal to be achieved by all healthcare providers. Hence, medical devices and equipment should be rendered safe by healthcare providers to avoid hospital acquired infections due to any diagnostic, therapeutic or surgical procedures carried out in the hospital. Increasing awareness regarding access to safe and quality healthcare drives the market for sterilization technology as they are the most utilized equipment's in all the specialty, multi-specialty and super-specialty hospitals."

Major key Players include
Advanced Sterilization
Products Services Inc, Atec
Pharmatechnik GmbH, Sterile
Technologies Inc., Steris
Plc, 3M Company”

Market Research Future

Sterilization technology market is expected to reach US\$ 15.84 billion by 2023 at a CAGR of 15.4% during the forecast period from 2017-2023.

Segmentation:

Global Sterilization Technology market is segmented
On the basis of type of sterilization which includes Gamma
Radiation, Electron Beam Radiation, Filtration, Ionizing
Radiation, Thermal Sterilization and others types of
sterilization,

On the basis of processes used for sterilization the market is

segmented into chemical, physicochemical, synergistic, physical and other processes. Chemical process includes sub-segments based on the chemical agent used for sterilization namely hydrogen peroxide, ozone, chlorine dioxide and others. Physiochemical process include sterilization using plasma and steam. Synergistic process includes psoralens & UVA and low temperature steam & formaldehyde. Physical process include microwave and pulsed light system.

End users of sterilization technologies include hospitals, pharmaceuticals, medical devices, cosmetics and other users.

Taste the market data and market information presented through more than 50 market data tables and figures spread in 110 numbers of pages of the project report. Avail the in-depth table of content TOC & market synopsis on “[Global Sterilization Technology Market Research Report- Forecast To 2023](#)”

Advanced Sterilization Products Services Inc. manufactures STERRAD Systems, CIDEK (Family of Products for high-level disinfection) and EVOTECH (Endoscope Cleaner and Reprocessor (ECR)). Atec Pharmatechnik GmbH manufactures stop processing system, formulation system, sterile powder transfer system and other sterilization technology equipments.

Sterile Technologies Inc. manufactures Ethylene Oxide, Emission Control system, Monitoring system, Propylene Oxide Sterilization system, Dry Heat Sterilizers, Steam sterilization system and Vacuum pump system.

Table of Content

- 1 Report Prologue
- 2 Market Introduction
 - 2.1 Introduction
 - 2.2 Scope Of Study
 - 2.3 Research Objective
 - 2.4 Assumptions & Limitations
 - 2.4.1 Assumptions
 - 2.4.2 Limitations
- 3 Research Methodology
 - 3.1 Research Process
 - 3.2 Primary Research
 - 3.3 Secondary Research
- 4 Market Dynamics
 - 4.1 Drivers
 - 4.1.1 Increased Emphasis On Patient Safety

4.1.2 Increased Awareness About Sterilization Among Surgeons

4.2 Restraints

4.2.1 Number Of Competitors

5 Market Factor Analysis

Key questions answered in this report

- What will the market size be in 2023 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by products, services, technologies, applications, end users, and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
