Market Research Future

The [women healthcare market](#) is growing at an average rate and is expected to show the similar trend during forecast period. With the growing awareness of early diagnosis, advanced treatment and growing novel drugs to treat the women health disorders among the patients and healthcare professionals has supported the growth of the market. The health of women is of particular concern as in many societies women are disadvantaged by discrimination rooted in sociocultural factors. For instance, women and girls face increased vulnerability to HIV/AIDS.

Globally, women healthcare market is dominated by

several major players such as Allergan, Amgen, Bayer, BD, Eli Lilly, Merck, Pfizer, Teva Pharmaceuticals and others. APAC region was the most benefited region due to the rising prevalence of the disease and rising number of treatment for women associated diseases and increasing advanced devices and therapeutics for gynecological disorders. The market for women healthcare is projected to grow at a steady CAGR of 5.04% during the forecast period from 2017-2023.
