

Royal Wood Floors Brings its Unsurpassed Craftsmanship to the New Port Richey-Tampa Bay Area Residents & Businesses

Royal Wood Floors now offers hard wood flooring services in the greater New Port Richey area.

TAMPA BAY, FLORIDA, UNITED STATES, July 12, 2017

/EINPresswire.com/ -- [Royal Wood Floors](#) specializes in [hard wood floor refinishing](#) and [engineered wood floor installations](#), and has done so in the Milwaukee, WI area as a highly successful hard wood flooring business for more than 15 years. They are now expanding to the New Port Richey-Tampa Bay area for home owners and businesses that would love to have beautiful wood floors. "After servicing or installing a new floor, we make a point of providing the following as a special series of to ensure that their floors are protected and provide that stunning hard wood beauty for as long as possible", says Keith Allman who owns Royal Wood Floors. He continues to say, "there are a variety of problems that can affect the beauty and life of hard wood floors and once these are isolated they can be handled properly so that the hard wood lasts for years the way it should". "We feel that by educating the home owner they can be better equipped to tackle a project themselves or will know what to ask and expect when working with professionals", he continues. "Clients have been walking all over us for generations and we love it!" he finishes with a smile.

Are you tired of contractors not following through with their promises? Royal Wood Floors makes sure that his service technicians go through the National Wood Flooring Association (NWFA) certification. "We make our customers' needs a top priority", says Allman. For residents in and

around the New Port Richey area, there's a new, more inexpensive option for hardwood floor buffing provided by Royal Wood Floors.

The company wants homeowners and investment property owners to know they can forego the expense of replacing their existing floors and help to increase home value without having to spend a lot of money. Whether your home, office or investment property has traditional hardwood floors or another type, like hardwood parquet flooring, this gentle, yet highly effective hardwood floor buffing and coating will indeed remake those floors into something spectacular that make them look all new again.

Royal Wood Floors will also be specializing in engineered wood floor installations as well as tile. "We decided to expand our service line to provide solutions for residents and business owners that would like to have tile flooring as well", says Allman.

"Hardwood floor buffing is one of our company's most cost effective options. When you have an existing floor which is in decent shape but has lost its shine or luster due to wear and tear through the years, this type of wood floor refinishing is a fantastic way to bring back its original beauty. What's more, the process only takes about a half a day. We can even put down additional coats at our customer's request. Within just 24 hours, we can return dull, lackluster wood flooring back to their glory. This service comes at a substantially less expensive rate than having hardwood flooring removed and replaced", adds Allman when discussing how buffing and coating can help save money and bring hard wood floors back to its beauty.

Many things can happen to hard wood floors or the finish of a hard wood floor that can take away from the natural beauty of a wood floor. This is why it's so valuable to have an experienced wood floor professional available to inspect the floor and determine the best, most cost effective way to improve it. "Many times, homeowners assume that sanding and refinishing is the only alternative for restoring worn wood floors," says Allman. "However, more often than not, the damage is superficial and has not yet reached the wood. When the wood planks are in good shape, replacing the top coat may be enough to revive the floors", he adds.

The assumption that sanding and refinishing is the unavoidable solution for tired floors can be traced

to the confusion caused by industry-specific terms. “Refinishing” and “buffing” are often used interchangeably, yet they refer to different methods of restoring wood floors. Royal Wood Floors also offers financing for qualified home owners to make it easier to get started. They also offer the ability to schedule a free estimate right on their website to make it easier for you. Their website blog has a wealth of information regarding hard wood flooring to educate home and business owners and help people to keep their floors in the best condition possible.

Refinishing a hard wood floor

“The best way to prevent problems is to always do the research first or seek professional help. Then problems such as the ones described here can be prevented,” says Allman.
