[Consumer Drones Market 2017](#)

Executive Summary

UAVs, commonly referred as drones, are flights without a human pilot aboard. These flights are controlled either autonomously, by an onboard computer, or by remote control from the ground or another vehicle. UAVs range from large to small size. Large-sized UAVs are used for tactical missions that are powered by the internal combustion engine, and electric motors drive small electric-powered UAVs.

The analysts forecast the global consumer drones market to grow at a CAGR of 15.92% during the period 2017-2021.
