

Security Information and Event Management 2017 Global Market to Grow at CAGR Of 12.03% and Forecast to 2021

Wiseguyreports.Com Publish New Research Report On-“Security Information and Event Management 2017 Global Market to Grow at CAGR Of 12.03% and Forecast to 2021”.

PUNE, INDIA, July 12, 2017 /EINPresswire.com/ --

[Security Information and Event Management Market 2017](#)

Executive Summary

SIEM includes solutions and services that help enterprises to analyze log (large volumes of computer generated data also known as audit records and audit trails) and event data in real time to identify potential threats and provide event correlation and incident response. The data is collected from security and network devices, systems, and applications. The data is collected in a central repository for interpretation of logs and trend analysis and provides automated reporting for compliance and centralized reporting. SIEM solutions provide quicker identification, analysis, and recovery of security events. The events are alerts generated by a network security device such as a firewall or intrusion detection system (IDS).

The analysts forecast the global security information and event management to grow at a CAGR of 12.03% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global security information and event management for 2017-2021. To calculate the market size, the report considers the revenue generated from the sales of SIEM solutions and services.

The market is divided into the following segments based on geography:

- APAC
- Europe
- North America
- MEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/895598-global-security-information-and-event-management-market-2017-2021>

The report, Global Security Information And Event Management 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- IBM
- Hewlett Packard
- McAfee
- LogRhythm
- Splunk

Other prominent vendors

- AlienVault
- BlackStratus
- EventTracker
- Dell Technologies
- Fortinet
- Micro Focus
- SolarWinds
- Symantec
- Tenable Network Security
- TIBCO Software
- Trustwave
- Zoho Corp

Market driver

- Need to comply with regulatory requirements.
- For a full, detailed list, view our report

Market challenge

- Security risks associated with SaaS offerings.
- For a full, detailed list, view our report

Market trend

- Growing popularity of managed security service providers.
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents

PART 01: Executive summary

PART 02: Scope of the report

- Market overview
- Methodology
- Estimation of market
- Segmentation
- Vendors
- Summation errors
- Target audience
- Major-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights
- Why enterprises need SIEM

PART 05: Architecture

- SIEM architecture
- Risks associated with SIEM implementation

PART 06: Market assumptions

PART 07: Market landscape

- Global SIEM market
- Global SIEM solutions market
- Global SIEM services market

PART 08: Market segmentation by deployment models

- Deployment models
- Global SIEM market by deployment

PART 09: Market segmentation by end-user

- Global SIEM market by end-user segmentation

PART 10: Geographical segmentation

- Global SIEM market by geography
- Global SIEM market by geography (revenue)

PART 11: Buying criteria

- Cost
- Security
- Interoperability
- Scalability

PART 12: Market drivers

- Increase in cybercrime
- Increased use of mobile devices
- Need to comply with regulatory requirements

PART 13: Impact of drivers

PART 14: Market challenges

- Threat from open-source SIEM software
- Lack of efficient security solutions
- Security risks associated with SaaS offerings

PART 15: Impact of drivers and challenges

PART 16: Market trends

- Growing popularity of managed security service providers
- Popularity of SaaS SIEM services
- Increased market consolidation
