Description

Wiseguyreports.Com Adds "Financial Analytics -Market Demand, Growth, Opportunities and Analysis of Top Key Player Forecast To 2022" To Its Research Database

According to Statistics MRC, the Global Financial Analytics market is projected to reach \$10.34 billion by 2022 growing at a CAGR of 12.2% during the forecast period. Some of the key drivers for the market growth include gradually increasing data intensity and utilization of financial analytics as a tool for competitive differentiation. However, safety measures and huge number of business proportions are the principal obstructions in the financial analytics market. Arrival of cloud computing has pushed the financial planning to a novel level and is anticipated to have long term impact on the financial analytics market.

BFSI segment is expected to hold the largest market share during the forecast period. North America is expected to acquire the largest market share in the global market during the forecast period. Early adoption and high acceptance by several SME's and large enterprises are some of key factors contributing to market growth in this region. APAC is anticipated to grow at the highest CAGR which can be attributed to favourable government initiatives and increasing demand for information storage in emerging countries such as India and China.

Some of the key players in global market include

Oracle Corporation, Microsoft, IBM Corporation, SAP, Information Builders, Deloitte, SAS, Hitachi Consulting, Tibco, Microstrategy, Fico, Teradata Corp, Symphony Teleca, Tableau Software, Rosslyn Analytics and Thomson Reuters.
