

Roof Crafters Newest Top of The House Certified Contractor for Owens Corning

Top of The House contractor for Owens Corning, Roof Crafters of Louisiana is now certified insulation and ventilation expert by industry giant Owens Corning.

BATON ROUGE, LOUISIANA, UNITED STATES , July 20, 2017

[/EINPresswire.com/](#) -- [Roof Crafters](#) announces earning a new certification from acclaimed industry giant Owens Corning as a Top of the House™ contractor. As a newly certified Top of the House™ contractor, Roof Crafters strengthens and extends the company's competitive advantage with roof ventilation and [attic insulation](#) capabilities.

BATON ROUGE, LOUISIANA (July 20th, 2017) -- Baton Rouge-based roofing contractor company, Roof Crafters LLC, is enhancing its expertise in roofing services with its new Owens Corning Top of the House™ certification. This certification bolsters Roof Crafters' current Owens Corning™ Platinum Preferred Roofing Contractor accolade via its attic insulation and roof ventilation proficiencies. This new certification from Owen Corning shows our further commitment to our roofing clients for the best overall roofing and insulation services, the leading roofing expert, Chuck Magee explains.

New Certification, Stronger Capabilities

For optimal performance, a home's insulation, ventilation and roof's ability to work systematically is vital. When these

components work together, homeowners can experience enhanced comfort and nearly immediate benefits of their preferred indoor temperature. Top of the House™ systems include Owens Corning™ PINK FIBERGLAST™ Blown-In Insulation for attics sans air leaks when insulation is added. This system preserves energy with its cost-effective greenhouse gas-reducing capabilities. Thus, a properly functioning Top of the House™ exemplifies Owing Corning's "PINK is green" motto. With this certification, Roof Crafters can provide quality assurance with its roof ventilation and insulation expertise.

Acceptance into the exclusive Owens Corning™ Platinum Preferred Roofing Contractors network required Roof Crafters to meet its high standards, including holding a minimum of \$1 million in general liability insurance and local and state licenses, maintaining a clean Better Business Bureau

profile in good standing, and having at least three or more years of experience. The network also represents less than 1 percent of the construction industry's roofing contractors. Certified Top of the House™ contractors have passed a rigorous assessment and training, which sets them apart from other contractors. With this added certification, Roof Crafters strengthens its credibility as an expert in roof ventilation and attic insulation.

About Roof Crafters LLC
