

# nexogy Launches Managed Firewall as a Service Solution.

*nexogy's Managed Firewall service will allow it to meet the growing security demands*

MIAMI, FLORIDA, UNITED STATES, July 20, 2017 /EINPresswire.com/ -- nexogy, recognized as one of South Florida's fastest growing technology companies, best known for providing small and medium-sized businesses Cloud-Based communications services, has selected Sophos as its technology partner to offer a Managed Firewall as a Service solution to its customers and channel partners.

[nexogy's Managed Firewall service](#) will allow it to meet the growing security demands of its customers and prospects in the United States by providing synchronized, next-generation cyber threat protection from Sophos for networks and endpoints, including web, email and server.

"Sophos is a next-generation security company with a channel-first, channel-only strategy that focuses all its efforts towards technical innovation, marketing, sales and support initiatives that help our partners succeed on all levels. We are committed to building solid relationships with our partners so they can bring the most innovative and advanced IT security to their customers," said Kendra Krause, vice president of global channels, Sophos. "With cyber threats evolving and changing daily, organizations of all sizes need a technology company that's on the frontline of developing highly effective solutions that are simple to use. We are excited to welcome nexogy into our partner community and look forward to a long and successful relationship."

"Delivering leading security services to protect today's businesses requires a combination of technical expertise and deep access to the underlying technologies to ensure that Secured Networks' services meet the unique needs of each customer. As a partner, Sophos Partner program provides the close collaboration and tools that enable us to provide differentiated security services that can be customized to address our customers' security challenges while reducing costs and maximizing IT investments," said Irvin Rodriguez, Chief Engineering Officer at nexogy.

## About nexogy

nexogy is a complete managed service provider that gives small- and medium-sized businesses the power to manage all of their communications from anywhere, at any time. nexogy has been providing

The advertisement features a blue cloud with a brick wall background. The text "Firewall as a Service" is written in bold black letters across the cloud. To the right of the cloud is a stylized flame. Below the cloud is a dark brick wall with the text "How much can you afford to lose?" in white, italicized font. At the bottom is the Sophos logo, consisting of the word "SOPHOS" in blue and "Security made simple." in a smaller blue font.

We are delivering leading security services to protect today's businesses, that requires a combination of technical expertise and deep access to the underlying technologies.”
