

Biopreservation Market 2017 Global Share, Trend, Segmentation and Forecast to 2021

The analysts forecast the global bio preservation market to grow at a CAGR of 12.43% during the period 2017-2021.

PUNE, INDIA, July 25, 2017 /EINPresswire.com/ --

[Global Biopreservation Market](#)

Description

Bio preservation is a process that uses effective storage techniques to preserve the indigenous functionality and integrity of cells, tissues, and organs at different temperatures for an extended period. Earlier, in the field of tissue engineering, cell and tissue transplantation, and genetic engineering, and preserving of engineered cells and tissues with functional viability in an external environment is a major challenge.

Covered in this report

The report covers the present scenario and the growth prospects of the global bio preservation market for 2017-2021. To calculate the market size, the report considers the revenue generated from the sale of bio preservation systems.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The Global Bio Preservation Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- BioLife Solutions
- Merck Millipore
- Thermo Fisher Scientific
- VWR

Other prominent vendors

- BioCision
- CESCO THERAPEUTICS
- Biomatrix
- Brooks Automation
- Core Dynamics
- CUSTOM BIOGENIC SYSTEMS
- Lifeline Scientific
- Helmer Scientific
- So-Low Environmental Equipment
- Princeton CryoTech

Market driver

- Increasing expenditure on R&D
- For a full, detailed list, view our report

Market challenge

- Improper Infrastructure
- For a full, detailed list, view our report

Market trend

- Growing demand for personalized medicine
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?

- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents -Major Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline
- Market size and forecast
- Five forces analysis

PART 05: Market segmentation by application

- Global biopreservation market by application
- Global biopreservation market by biobank
- Global biopreservation market by regenerative medicine
- Global biopreservation market by drug discovery

PART 06: Market segmentation by end-user

- Global biopreservation market by end-users
- Life science and healthcare facilities
- Research laboratories
- Others

PART 07: Geographical segmentation

- Global biopreservation market by geography
- Biopreservation market in Americas
- Biopreservation market in EMEA
- Biopreservation market in APAC

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- Growing demand for personalized medicine
- Increase in outsourcing activities
- Trend of room temperature storage technology
- Emerging role of biopreserving agents

PART 11: Vendor landscape

- Competitive scenario
- Other prominent vendors

PART 12: Key vendor analysis

- BioLife Solutions
- Merck Millipore
- Thermo Fisher Scientific
- VWR
