L.P., Commvault Systems
Inc., Global Relay
Communications Inc., Google
Incorporation”
Market Research Future

The [global Healthcare Archiving and eDiscovery market](#) of is expected to reach US\$ 8.4 billion in 2023 from US\$ 4.25 billion in 2016 with a CAGR of approximately 9.5% during the forecast period from 2017-2023.

Healthcare is a highly litigious and regulated industry. Many organizations are unprepared with the right systems to cost effectively address these requirements. In the healthcare industry, organizations have to comply with numerous regulations and rules. They therefore need an intelligent information governance solution with a purpose-built eDiscovery platform. Structured data can be referred as alphabets, numbers and can be easily processed and stored whereas unstructured data can be referred as email, images, audio and video files. In healthcare structured data refers to

patient's unique identification number and patients billing information. While instructed data refers to radiological images which required same format of image i.e. jpeg. for exchange of images between healthcare providers. Large amount of data is to be managed by the healthcare providers to follow all the rules and regulations. Data classification is important in order to immediately access it whenever required. Globally Healthcare Archiving and eDiscovery market are been driven by need of data storage regarding patients billing, radiological images, and medical history and management of healthcare data.

The global market of Healthcare Archiving and eDiscovery market is blooming due to increase in awareness of using Information Management System and importance of medical data archiving system among healthcare providers.

Study Objectives of Healthcare Archiving and eDiscovery Market:

- To provide detailed analysis of the market structure along with forecast for the next six years of the various segments and sub-segments of the Healthcare Archiving and eDiscovery market
- To provide insights about factors affecting the market growth
- To analyze the Healthcare Archiving and eDiscovery market based on various factors- price analysis, supply chain analysis, porters five force analysis etc.
- To provide historical and forecast revenue of the market segments and sub-segments with respect to four main geographies and their countries- Americas, Europe, Asia-Pacific and Middle East and Africa.
- To provide country level analysis of the market with respect to the current market size and future prospective
- To provide country level analysis of the market for segments by type, by deployment, by data storage and its sub-segments
- To provide overview of key players and their strategic profiling in the market, comprehensively analyzing their core competencies, and drawing a competitive landscape for the market
- To track and analyze competitive developments such as joint ventures, strategic alliances, mergers and acquisitions, new product developments, and research and developments in the global Healthcare Archiving and eDiscovery market.

Segments:

Global Healthcare Archiving and eDiscovery Market is segmented

On basis of types including Archiving and eDiscovery,

On basis of deployment including On-premise system and Cloud system,

On basis of application including Revenue cycle management, Electronic health record, Practice Management System, laboratory Information System, Radiology Information System, Picture Archiving System and other systems

On basis of regions consisting of North America, Europe, Asia-Pacific and Middle East and Africa.

Intended Audience

- Healthcare Archiving and eDiscovery system providers
- Cloud platform providers
- Regulatory and compliance agencies
- Investors and venture capitalists
- Government

Key questions answered in this report

- What will the market size be in 2023 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?
