

# Allentuck Landscaping Co. is pleased to announce the roll out of our new Hybrid Organic Lawn Care Program

*Safe lawn care is something that we are all concerned about. We want to know that our lawns are safe for our children and our pets.*

CLARKSBURG, MARYLAND, USA, July 26, 2017 /EINPresswire.com/ -- [Allentuck Landscaping Co.](http://AllentuckLandscapingCo.com) is pleased to announce the roll out of our new Hybrid Organic Lawn Care Program. This program is kid safe, pet safe, and earth safe.

Safe lawn care is something that we are all concerned about. We want to know that our lawns are safe for our children and our pets. We also want to make sure that what we put on our lawns is not harming the earth. At the same time, we all still want the American dream of a lush, green yard.

"At Allentuck Landscaping Co., one of our goals is to consistently deliver top quality service to our customers, while still being good stewards of the environment. After all, we are leaders in the original 'green industry' in this area," commented company president Bruce Allentuck.

Our program introduces a 100% organic bio-nutrient plant probiotic that balances the soil's ecosystem, building strong roots and growing healthier, more resilient plants. By improving the soil the grass grows in, the lawn will naturally be stronger and healthier.

Instead of lots of chemicals, our program uses an abundant and diverse list of beneficial microorganisms, microbial food sources, and organic additives that turn a small amount of fertilizer into the most effective plant treatment available. By using these bio-nutrients, we can reduce your inputs by up to 75%.

Beneficial microorganisms, microbial food sources, and organic additives mean fewer pesticides to be

Kid Safe, Pet Safe, Earth Safe

Our program introduces a 100% organic bio-nutrient plant probiotic

concerned with for your children and pets, and less nutrients to run-off and pollute our streams, rivers and the Chesapeake Bay. This program is a huge step towards having a beautiful lawn and making sure it is safe.

At Allentuck Landscaping Co., [our mission is to create beautiful environments for people to enjoy](#). We see landscaping as a way to improve people's lives.
