

Liquid Crystal Polymers Market 2017: Company Profiles, Market Segments, Landscape and Demand by Forecast 2022

Global Liquid Crystal Polymers Market Information- by Type , by Application and by Region - Forecast to 2022

PUNE, MAHARASHTRA, INDIA, July 26, 2017 /EINPresswire.com/ --

Market Synopsis of Global Liquid Crystal Polymers Market:

Global Liquid Crystal Polymers Market is expected to reach USD 1.28 billion by 2022. The market is driven by various industries sectors such as consumer goods, electronics & electrical and many others. Driving factor for this market are growing engineering resins, demand of ultra-thin electrical components. Liquid Crystal Polymer has unique set of properties. These properties allow these components to perform well even in harsh environment making them capable for tolerating high heat as well as the effect of strong chemical as well as electricity. This heat, chemical and electricity makes them suitable to be modern high pressure fuel line connectors in the automotive industry. Applications such as connectors with high pin density have been driving a notable growth with respect to be in LCP's consumption.

The key players in global liquid crystal polymers market includes Polyplastics Co., Ltd., Sumitomo Chemical Co., Ltd., Celanese Corporation, Solvay S.A., Ueno Fine Chemicals Industry Ltd."

Market Research Future

Geographically, Asia- Pacific is expected to drive the market from 2015 to 2022. China was the leading market followed by Japan, South- Korea which are also currently witnessing a steady growth.

Study Objectives of Global Liquid Crystal Polymers Market:

- Studying in detail the Global Liquid Crystal Polymers

market with respect to type, by application and region in forecasted period 2022.

- Identifying the market dynamics of Liquid Crystal Polymers considering driving factors of the market, restrains, opportunities and challenges.
- Analyzing various factors like value chain analysis and Porters Five Forces model.
- Providing past and estimates revenue of market segment with respect to APAC, North America, Europe and RoW.
- Providing strategic profiling of key players in the market, comprehensively analyzing their core competencies and drawing a competitive overview of the market.
- Tracking mergers and acquisitions, strategic alliances, new product development of each applicant of the Liquid Crystal Polymers Market.

Key Players

The key players in Global Liquid Crystal Polymers Market includes Polyplastics Co., Ltd., Sumitomo Chemical Co., Ltd., Celanese Corporation, Solvay S.A., Ueno Fine Chemicals Industry Ltd., Toray International, Inc., SAMSUNG FINE CHEMICALS CO. LTD., Shanghai PRET Composites

Co., Ltd, Vectra/Zenite LCP and Polyone Corporation.

Key Points from Table of Content:

11. Company Profiles

11.1 Polyplastics Co., Ltd

11.1.1 Overview

11.1.2 Financials

11.1.3 Product Portfolio

11.1.4 Business Strategies

11.1.5 Recent Development

11.2 Sumitomo Chemical Co., Ltd

11.2.1 Overview

11.2.2 Financials

11.2.3 Product Portfolio

11.2.4 Business Strategies

11.2.5 Recent Development

11.3 Celanese Corporation

11.3.1 Overview

11.3.2 Financials

11.3.3 Product Portfolio

11.3.4 Business Strategies

11.3.5 Recent Development

11.4 Solvay S.A.

11.4.1 Overview

11.4.2 Financials

11.4.3 Product Portfolio

11.4.4 Business Strategies

11.4.5 Recent Development

About Market Research Future:

At Market Research Future (MRFR), we enable our customers to unravel the complexity of various industries through our Cooked Research Report (CRR), Half-Cooked Research Reports (HCRR), Raw Research Reports (3R), Continuous-Feed Research (CFR), and Market Research & Consulting Services.

MRFR team have supreme objective to provide the optimum quality market research and intelligence services to our clients. Our market research studies by Components, Application, Logistics and market players for global, regional, and country level market segments, enable our clients to see more, know more, and do more, which help to answer all their most important questions.
